THE

AITAREYA BRAHMANAM OF THE RIGVEDA,

CONTAINING THE EARLIEST SPECULATIONS OF THE BRAHMANS

ON THE ORIGIN, PERFORMANCE, AND MEANING

OF THE

RITES OF THE VEDIC RELIGION.

EDITED, TRANSLATED, AND EXPLAINED

BY

MARTIN HAUG, PH.D.,

SUPERINTENDENT OF SANSCRIT STUDIES IN THE POONA COLLEGE, &c.

Two Vols. of above 800 pages in 12mo.; 215 pages Sanscrit Text, and above 600 pages Translation.

Price per Copy, to Subscribers............Rs. 17
" *to Non-Subscribers ...Rs.* 20

This work is the *first* edition, and *first* translation of one of the most important books for the history of Brâhmanical theology and philosophy. No writing of that class of Vedic Literature, which is called Brâhmanas, having been translated as yet into any European or Indian language; this publication may, therefore justly be called a novelty. It contains the most recondite secrets of the Brâhmanical order made public for the first time. The author has been fortunate enough to obtain oral information on the technicalities of the sacrificial art, without proper knowledge of which the book would be for the most part unintelligible, a task in which no European scholar in this country before him succeeded.

The work will be of great importance and use not only to Oriental scholars, but to all who take an interest in the history of religious ideas, and particularly to Missionaries and the educated Hindoos; for it throws a new light altogether on the history and nature of the Vedic religion, and the origin of Brâhmanical theology and philosophy.

The translation, which is plain and easily intelligible, is accompanied with many foot notes explanatory of technical terms, or other difficult points. In an Introduction the reader will find a brief general view of the sacrificial ideas of the Brâhmans, and their earliest theological speculations.

The work, which is for the most part already printed, will be issued in January or February 1864.

*** Persons wishing to subscribe are requested to forward their names, and mention number of copies required, to the Curator of Book Department, Central Depot Bombay.

If they now excel, however, in a different branch, they can, of course, claim the full amount of the prize due to them. Any surplus funds arising from the above or other causes will be devoted to extra prizes for the most deserving of those who are not included among the best three in any subject.

This work is the *first* edition, and *first* translation of one of the most important books for the history of Brâhmanical theology and philosophy. No writing of that class of Vedic Literature, which is called Brâhmanas, having been translated as yet into any European or Indian language; this publication may, therefore justly be called a novelty. It contains the most recondite secrets of the Brâhmanical order made public for the first time. The author has been fortunate enough to obtain oral information on the technicalities of the sacrificial art, without proper knowledge of which the book would be for the most part unintelligible, a task in which no European scholar in this country before him succeeded.

The work will be of great importance and use not only to Oriental scholars, but to all who take an interest in the history of religious ideas, and particularly to Missionaries and the educated Hindoos; for it throws a new light altogether on the history and nature of the Vedic religion, and the origin of Brâhmanical theology and philosophy.

The translation, which is plain and easily intelligible, is accompanied with many foot notes explanatory of technical terms, or other difficult points. In an Introduction the reader will find a brief general view of the sacrificial ideas of the Brâhmans, and their earliest theological speculations.

The work, which is for the most part already printed, will be issued in January or February 1864.

Lastly, pupils of the 1st class can, in like manner, take up Criminal Law, as prescribed for their class, or the two branches prescribed for the lower classes—either one or more of them, as they please.

3. Prizes, either in cash or books, of the value of Rupees 15, 10, and 5, will be awarded to the three best Government scholars respectively in each branch of this law examination ; but those who have won any of these prizes on former occasions, will only receive the difference between the value of the prize already obtained in any branch, and the value of that to which they may now become entitled in the same branch. If they now excel, however, in a different branch, they can, of course, claim the full amount of the prize due to them. Any surplus funds arising from the above or other causes will be devoted to extra prizes for the most deserving of those who are not included among the best three in any subject.

4. The examination questions will be set in English and Urdoo, and can be answered in either language at the option of the examinee. The examiners will be, as before, the Personal Assistants to the Judicial and Financial Commissioners, or other gentlemen well versed in the current law of the Punjab.

This work is the *first* edition, and *first* translation of one of the most important books for the history of Brâhmanical theology and philosophy. No writing of that class of Vedic Literature, which is called Brâhmanas, having been translated as yet into any European or Indian language; this publication may, therefore justly be called a novelty. It contains the most recondite secrets of the Brâhmanical order made public for the first time. The author has been fortunate enough to obtain oral information on the technicalities of the sacrificial art, without proper knowledge of which the book would be for the most part unintelligible, a task in which no European scholar in this country before him succeeded.

The work will be of great importance and use not only to Oriental scholars, but to all who take an interest in the history of religious ideas, and particularly to Missionaries and the educated Hindoos; for it throws a new light altogether on the history and nature of the Vedic religion, and the origin of Brâhmanical theology and philosophy.

The translation, which is plain and easily intelligible, is accompanied with many foot notes explanatory of technical terms, or other difficult points. In an Introduction the reader will find a brief general view of the sacrificial ideas of the Brâhmans, and their earliest theological speculations.

The work, which is for the most part already printed, will be issued in January or February 1864.

*** Persons wishing to subscribe are requested to forward their names, and mention number of copies required, to the Curator of Book Department, Central Depot Bombay.

No. 27.—The following rules for the admission of Pleaders in the courts of the Punjab and its Dependencies are published, with the sanction of His Honor the Lieutenant Governor, for general information :—

RULES FOR THE ADMISSION OF PLEADERS IN THE COURTS OF THE PUNJAB AND ITS DEPENDENCIES.

Rule I.—No person will be allowed to practise professionally in the courts of the Punjab and its Dependencies, or in any way to interfere in any suit, till he has received a certificate under the following rules, and any person interfering contrary to this provision will be treated as guilty of a contempt. Barristers, or other persons who may by Law be entitled to plead, can alone be exempt from these rules.

Rule II.—Candidates for a certificate enabling them to plead in the courts, must lodge with the Commissioner of the Division on or before a fixed date, at a reasonable time before the day appointed for examining candidates, trustworthy testimony in writing showing the sufficiency of their general education and the respectability of their character, from which it may be judged whether they are fit persons to be admitted as candidates. Applications will be submitted in the form annexed (A.)

Rule III.—The general education of a candidate must be shewn under the preceding rule by a certificate from some public officer or from the Principal of some known educational institution, or some other person whose testimony is evidently sufficient; respectability of character must be shewn by a certificate, or certificates, of such a nature that there can be no doubt of their sufficiency. They must certify to the character of the candidate for a period of at least three years before the date of the application. If the candidate is, or has been at any time, employed in the service of the Government, he must produce satisfactory evidence to show that his character has always been considered by his official superiors to be respectable. If he has left any appointment in the service of Government otherwise than on promotion to a higher office, the reasons for which he left such appointment must be duly certified.

Rule IV.—The Commissioner will, after such inquiry as may be deemed necessary, admit or reject the candidate, and shall not be bound to specify reasons for rejection. But a rejected candidate may appeal to the Judicial Commissioner, who may call for a confidential report of reasons, and whose order on the subject will be final.

Rule V.—A list of the persons admitted as candidates by the Commissioner will be submitted to the Judicial Commissioner, who will have a veto thereupon.

Rule VI.—Periodical examinations will be held at such times and at such places as the Judicial Commissioner may appoint. The examinations will be conducted by a committee of which the Commissioner of the division will ordinarily be the President, and the other members of which will be nominated by the Judicial Commissioner. At these examinations all persons admitted as candidates may present themselves.

The answers to the questions are to be in writing. A key will also be forwarded in a separate sealed packet, not to be opened until the papers have been handed in by the examiners. The committee will further examine each candidate *vivâ voce* in the language, and in the conduct of a case, and will record its opinion of his performance in each branch. They may also put such further questions to him as they think fit.

Rule IX.—No books in writing of any kind, English or vernacular, are to be allowed to be made use of in the examination. Any transgression of this rule will render the whole examination of the transgressor null and void.

1ST OR ENGLISH CLASS.

Period of studentship, five years.

Natives of Bengal Proper, Madras, and Bombay, for whom Colleges are provided in their respective presidencies, are not admissible.

Candidates must be between the ages of sixteen and twenty; and, previous to admission, are required to pass an examination in arithmetic, as far as decimal fractions; and in the English language, which they are expected to understand thoroughly, their knowledge of it being ascertained from reading, writing from dictation, and by questions upon the signification of what they read and write. Scholarships, varying in value from seven to ten rupees per mensem, are given to four or five of those that acquit themselves best at this examination, if sufficient ability be shewn. These matriculation scholarships are held during the first winter session, a period of seven months, from October to April. In April, the students contend, at the prize examination for the junior scholarships, which vary in value from ten to twenty rupees: four or five of them are given to the most proficient students, if sufficient ability be shewn; they are held for a year, commencing on May 1st and are re-distributed in April of the following year, according to the attainments of the students, ascertained at the examination of that year. The same process is repeated at the end of the third winter session, when the junior scholarships are re-distributed for the last time, to be held till the end of the fourth winter session. At the end of the fourth winter session, senior scholarships are contended for, tenable during the 2nd half of the 4th and the 5th year of studentship.

The above rules apply to each set of students, their 1st 2nd 3rd and 4th winter sessions being reckoned from the date of their matriculation.

Scholarships may be, at any time, forfeited or diminished in value, in consequence of idleness or misconduct.

2ND OR HINDOOSTANEE CLASS.

Period of study, three years.

Candidates must be natives of the Punjab or North-Western Provinces, and must be between the ages of sixteen and twenty.

Previous to admission, they are required to pass an examination in arithmetic, as far as the rule of proportion; and in the Hindoostanee language, their knowledge of which is ascertained from reading, and writing from dictation, in the Persian character. Preference is shewn to any that understand English, and credit is also given for knowledge of Punjabee.

The successful candidates for this class are enlisted as sepoys, and placed under military discipline; and receive pay, while students, of rupees 6 per mensem. Any that qualify themselves for the tests required for the English class, are allowed to pass into that class, to be educated as Sub-Assistant Surgeons.

The next matriculation examination for the English class will be held on Thursday September 29th. Candidates must present themselves to the Principal to be registered on the previous day, Wednesday 28th, at 11 A. M., bringing with them satisfactory certificates of character. There will be four vacancies.

The next matriculation examination for the Hindoostanee class will be held on Tuesday April 26th. Candidates must present themselves to the Principal to be registered at 11 A. M., on the previous day, Monday 25th, bringing with them satisfactory certificates of character. There will be thirty-two vacancies in this class.

In consequence of the demand for native doctors on the frontier, it has been determined to keep fifteen vacancies, in the Hindoostanee class, to be competed for separately by candidates, who shall bring with them satisfactory certificates of qualification in the frontier language. The tests for these candidates, on presenting themselves at the College, will be the same as for as other members of the class; only they will not be put in competition with candidates from other parts of the Punjab, whose superior knowledge of Hindoostanee has hitherto generally excluded the frontier men.

The winter session of the College lasts from October 1st to April 30th. The summer session from May 1st to July 31st.

Vacations.—A week at Christmas, and the two months of August and September. The military students do not all obtain leave during the whole of the vacations; a certain number of them are retained, at the discretion of the Principal, to carry on the work of the hospital.

No. 54 of 1864.—The undermentioned officer is permitted to proceed to Europe on leave of absence on sick certificate :—

Lieutenant Hastings Macsween, of the Royal Engineers, Assistant Executive Engineer, Delhi.	For 20 months, under the new Regulations.

25th January 1864.

No. 62 of 1864.—The following Military letter from the Right Hon'ble the Secretary of State for India is published for general information :

From H. M.'s Secy. of State for India, to the Right Hon'ble the Governor-General of India in Council, No. 352, dated 8th October 1863.

My Lord,—I have received and considered in Council your letter No. 210, dated 8th July 1863, requesting a reconsideration of the decision communicated to you in my despatch No. 82 of 25th February last, regarding the case of officers of the staff corps who hold appointments the consolidated pay of which is less than the pay of their rank in the staff corps, and soliciting that, pending a decision on the general question of staff salaries, the recommendation of the Committee of Secretaries, viz., that any excess of the staff corps pay above the consolidated salary should be treated as an item of military expenditure, may be allowed to remain in force as it has been hitherto acted upon.

2. The decision of Her Majesty's Government on the subject of the staff salaries to be attached to offices held by military officers in India, was communicated to you in my despatch No. 311, of the 31st August 1863.

3. You will have learnt from that despatch that the principles proposed by the Committee of Secretaries in the determination of this question, have been generally concurred in, that in the case of military officers in staff employ, a certain salary has been fixed for every appointment, to be drawn in addition to the staff corps pay of their rank, and that, in a few cases only, and those appointments of the highest class, the salaries of officers so situated are to be consolidated. The salaries of military officers holding appointments connected with the civil administration of the country, will be consolidated and fixed without reference to the rank of the incumbent.

4. Under this system, it can very rarely happen that the salary attached to any office will be less than the staff corps pay of an officer.

5. You have observed, in your letter in the Financial department, No. 134, of the 14th October 1862, that you consider it objectionable in principle that officers should receive different rates of pay for doing precisely the same duties, and the Committee of Secretaries, in recommending that the salaries of all civil appointments should be consolidated and fixed without reference to the rank of the incumbent, observe that "the principle needs no comment; it is simply to the effect that, where a military man is appointed to a civil office, he should draw the same salary as if he were a civilian." "This is the established principle with regard to such appointments, and it would be invidious now to introduce a distinction."

6. I concur in this view of the subject.

7. I consider it of importance that the salary drawn by an officer employed in the civil administration of the country should be the same, whether such officer belong to the civil or to the military service.

8. I regret, therefore, that I cannot sanction the adoption of the rule recommended by you, that any excess of the staff corps pay, above the consolidated salary, should be treated in such cases as an item of military expenditure.

9. With regard to the objection raised in the 5th paragraph of your letter under reply, I have only to observe that, as remarked in a subsequent paragraph of that letter, it must be of very rare occurrence that officers of 20 and 26 years' service, holding the rank of Major or Lieutenant-Colonel, should be employed in situations the salaries of which are not far in excess of the staff corps pay of those grades, and that, in such exceptional cases, it would of course be optional with such officers either to retain the appointment in question, or to remain unemployed until otherwise disposed of.

The 20th January 1864.

At the recommendation of the Lord Bishop of Calcutta, the services of the Revd. C. Sloggett, Chaplain of Nynee Tal, are placed at the disposal of the Government of the Punjab, from the 20th January 1864.

The following extract from the Proceedings of the Government of India, is published for general information :—

No. 375.

Extract from the Proceedings of the Right Honorable the Governor-General of India in Council, in the Home Department, under date the 13th January 1863.

Resolution.—In Clause 6 of the "Rules for Grants-in-aid," it is provided that "no grant will "in any case exceed in amount the sum expend-"ed on the institution from private sources."

2. Expenditure from schooling fees has not hitherto been uniformly recognized as part of the expenditure from private sources, to which reference is made in this rule. In 1858, it was, indeed, ordered by the Government of India that schooling fees should not be taken into account. The Secretary of State, however, having expressed an opinion that, in respect of vernacular schools, at all events, it would be sufficient to require that the amount of local contributions from all sources should equal the Government grant, such a relaxation of the original practice has been since allowed in many instances, and occasionally in the case of Anglo-vernacular schools, as well as purely vernacular schools ; and, in March 1862, with reference to the proposed establishment of a school at Lahore for Christian children, the Punjab Government was expressly authorized to give it support by a "grant-in-aid to the fullest extent allowed by the rules, *i. e.*, a monthly allowance equal to amount of subscriptions and schooling fees." It appears to the Governor-General in Council inexpedient to refuse to recognize the fees paid by the parents of the children who frequent a school as part of the amount "expended on the institution from private sources," entitling the school to a grant-in-aid. The tendency of such a rule must obviously be to induce the managers of private schools to make the schooling fee as nearly nominal as possible, and to take from the parents of the children whatever additional amount may be required under the name of subscriptions. No advantages but, on the contrary, great evil is to be looked for from compelling recourse to such contrivances ; and the Governor-General in Council is, therefore, pleased to resolve that for the future, in respect of all schools aided by a grant from the public revenues, "the sum expended on the institution from private sources" shall be held to include private contributions from all sources, schooling fees included. But in laying down this rule, it seems desirable to observe that it should by no means be assumed that to every school applying for a grant-in-aid, a grant equal to the sum expended on the institution from private sources is invariably, and as a matter of course, to be given. The rule states that no grant shall in any case exceed the sum so expended, and it is the duty of the education-

al officers to examine carefully into the circumstances of each case, and to recommend such an amount, as a grant-in-aid, not exceeding, and not necessarily equal, to the amount expended from private sources, as may seem proper.

All in excess of ½ a ton will be charged at full rate.

MILITARY DEPARTMENT.

Fort William, the 10th February 1864.

No. 117 of 1864.—The following Military letter from the Right Honorable the Secretary of State for India, is published for general information :—

From H. M.'s Secretary of State for India, to the Right Honorable the Governor General of India in Council, No. 445, dated 31st December 1863.—

SIR,—I have received and considered in Council your Excellency's Military letter, No. 56A, dated 29th July 1863, forwarding applications from the officers commanding the Guide Corps, 1st and 2nd Punjab Cavalry, and 2nd Punjab Infantry, soliciting that the period passed in command of regiments of the Punjab Irregular Force may be considered as qualifying an officer for promotion to the rank of Colonel, in like manner as such command counts in native regiments of any description under the orders of His Excellency the Commander-in-Chief.

2. My attention has been already drawn to this subject by your Proceedings in the Military department, Nos. 214 and 215 of the 5th March last, wherein it appears that the claim of a Lieutenant Colonel of the Bombay army to promotion under the Warrant was considered subject to the inquiry as to whether the regiment he commanded was or was not under the orders of the Commander-in-Chief ; and I was, prior to the receipt of the Governor General's letter now under acknowledgment, in communication with His Royal Highness the Commander-in-Chief on the subject.

3. I observe that the wording of my reply to the inquiry contained in the 7th paragraph of your letter No. 83 of 17th June 1859, may have led to a misapprehension of the intention of Her Majesty's Government, and of His Royal Highness the Field Marshal Commanding-in-Chief upon this point.

4. In the paragraph referred to, your Government desired "to be informed whether the command of irregular and local regiments is to be still considered as qualifying for promotion to the rank of Colonel ;" and a reference having been made to the General Commanding-in-Chief on this subject, it was stated in reply "that His Royal Highness considers that the command of local or irregular regiments, if held by an officer with the rank of Lieutenant-Colonel, may qualify for the rank of Colonel under the provisions of the Warrant."

5. There were, however, two descriptions of native forces, with a regimental organization, viz., the 1st, military, consisting of regiments employed on duties of a strictly military character ; and, 2nd, the police, consisting of irregular bodies, which, though having a military organization, were ordinarily employed upon civil and police duties.

6. It was not intended that the command of a corps of the latter description should qualify for promotion under the 8th clause of the Royal Warrant, and it was with a view of drawing a distinction between the two descriptions of force to which I have referred, that the words "under the orders of the Commander-in-Chief," which did not occur either in your letter or in that of the Military Secretary to His Royal Highness, but which were adopted as expressing in a few words the distinction which it was intended to make, were inserted in my reply to your reference.

7. While the object of the distinction was to exclude officers of police battalions from the operation of the 8th clause of the Warrant, it was not intended to exclude from the privilege conferred by it, officers commanding regiments of a strictly military character, whether serving directly under the Commander-in-Chief, or placed, for reasons of State policy, under the Civil Government.

8. I request, therefore, that the terms of your order No. 39 of 1859, which would seem to exclude from the benefit of clause 8 of the Royal Warrant, officers commanding regiments or forces of the latter description, may be modified, and that the rule, as now explained, may be applied, with retrospective effect, to such officers as may be already entitled to promotion to the rank of Colonel under its provisions.

9. Under the operation of this order, the Punjab Force, the Hyderabad Contingent, and all such bodies of troops will be considered as forming a portion of the standing army, and officers serving with those Forces will be entitled to all the privileges regarding promotion granted to the officers of the army at large, by the usage of the service, or under the provision of the Royal Warrant.

No. 118 of 1864.—The following Military letter from the Right Honorable the Secretary of State for India is pulished for general information :—

From H. M.'s Secretary of State for India to the Right Honorable the Governor General of India in Council, No. 446, dated 31st December 1863.

SIR,—With reference to my Despatch No. 436 of 25th November 1862, I have to inform you that the rule laid down in a Circular from the Horse Guards, No. 61 of the 24th August 1860, extends to all officers holding the rank of Captain regimentally with the brevet rank of Lieutenant Colonel, who may be serving in positions qualifying for promotion to the rank of Colonel, under the 8th clause of the Royal Warrant of 31st January 1859.

2. It is therefore to be considered as applying to officers of that rank holding the command of regiments in the Indian army.

3. A Captain and Brevet-Lieutenant-Colonel appointed to the command of a regiment before the publication in General Order of the Horse Guards' Circular of the 24th August 1860, would count his period of command as qualifying service for the rank of Colonel, but a Captain and Brevet-Lieutenant-Colonel appointed to a similar command subsequent to the publication, would not so count it.

No. 124 of 1864.—The Governor-General in Council is pleased to direct the publication of the following Rules in modification of Government General Order No. 566, dated 8th September 1863.

I. As a rule, gratuities granted on discharge to Commissioned and non-commissioned officers and sowars of native cavalry on the irregular footing will be calculated on the net pay of the several grades.

II. Horse allowance, in addition to net pay, will be sanctioned only when the horses of discharged men are not taken over at a valuation by the regiment, or under any extraordinary circumstances, when the sanction of Government may be specially accorded.

III. Horse allowance will be admitted by the Pay department upon certificates from officers commanding native cavalry regiments, to the effect that the horses have not been taken by them for their corps.

1ST.—OF PASSAGE.

1st. The despatch of boats will be duly advertised, and all applications for passage on the Government vessels proceeding to Mukhud and intermediate stations should be made to the Superintendent Inland Navigation at Sukkur, and persons wishing to ensure cabins on the return passage from Mukhud should apply to the Freight Agent of that station or the Commander of the vessel when practicable.

2nd. 1 servant is allowed to each cabin occupied by one person, but if a cabin be occupied by more than one person an additional charge, equal to half a quarter deck passage, will be made, which will entitle the cabin to a 2nd servant. All other servants will be considered deck passengers and charged accordingly.

3rd. Children when messed by the Commander under 12 years of age, will be charged half quarter deck passage. All above 12 years a full quarter deck passage. No charge made for children under 2 years of age. Children of deck passengers not messing with the Commander are charged deck passage rates according to above age.

4th. Passengers are allowed to carry such baggage and furniture within their cabin as it will contain, but all packages, such as cases of piece goods, beer, wine, &c., intended for traffic, will be stowed with the cargo of the vessel to the extent of 25 feet or ½ a ton, and charged for at half the established rate. All in excess of ½ a ton will be charged at full rate.

5th. Quarter deck passengers are allowed baggage to the extent of 20 cubic feet; all in excess of this quantity will be charged at the full rate of freight.

6th. Messing is provided by the Commander at Rs. 4 per diem for each person, exclusive of wines and beer, which if provided on board will be charged for at reasonable rates.

7th. Children under 14 years of age who do not come to the table will be provided with meals by the Commander at 2 Rupees per diem; the same charge is made for christian servants, and children under 7 years of age are charged 1 Rupee per diem. Children who come to the mess table are charged the same as adults. No charge made for babes.

MILITARY DEPARTMENT.

The 1st March 1863.

Nos. 37, 38, 39.—The following extracts from the *Gazette of India* of the 24th February are re-published :—

MILITARY DEPARTMENT.

Fort William, the 16th February 1864.

No. 136 *of* 1864.—His Excellency the Governor General in Council is pleased to publish for general information the following rules in respect of rewards for the apprehension of deserters as applicable to the three presidencies. All other orders on the subject now existing are hereby cancelled :—

1. A reward of 30 rupees will be paid to any person who shall apprehend and make over to the appointed military authority a European soldier deserter.

2. The sum authorized is to be paid by the Pay department with the least practicable delay, and without requiring anything further than bills, submitted and vouched under the following rules :—

If the apprehension shall have been effected by the police or by any subordinate of the civil authority, and the corps from which the man is supposed to have deserted be quartered at the place of capture, or in the immediate vicinity of it, he is to be sent by the civil authority concerned direct to the regiment.

If found to be a deserter from such corps, the commanding officer will forward the following certificate immediately to the superior officer of the captor, who will submit it with a bill to the pay department, and be responsible for the issue of the reward to the person entitled to receive it:

CERTIFICATE.

Certified that private , a deserter from the regiment under my command, was restored to his corps by the Commissioner of Police (or other functionary, as the case may be) on this date.

(Place and date.) *Commanding Regiment.*

3. If the captor shall be a person not in the employment of the State, and having no superior officer, the supposed deserter is to be made over in the first instance to the brigade, station, or garrison staff officer on the spot, who will forward the man to his regiment ; and, upon receiving the above certificate from the commanding officer will submit it with a bill to the Pay department and issue the reward.

4. In every case of a man being apprehended as a deserter from a regiment quartered at a distance from the place of apprehension, he is to be made over to the brigade, station, or garrison staff officer on the spot.

If the staff officer shall have evidence to satisfy him that the man is a soldier deserter, he will at once submit a bill for the reward for apprehension supported by the following certificate :—

CERTIFICATE.

Certified that (name) has been apprehended and made over to me ; and, from the evidence in my possession, I am satisfied that he is a deserter from the regiment.

If the staff officer shall not, at the time the man is made over to him, be in possession of the requisite evidence to enable him to furnish this certificate, the obtainment of the reward must necessarily be deferred until the certificate can be supplied.

5. As the apprehension of deserters and the speedy issue of the reward to those who assist the Government by effecting it, depends materially upon the transmission of rolls and full particulars by regimental authority to civil and military functionaries concerned, commanding officers are held responsible that the earliest possible intimation of desertions from their corps is made to all proper quarters, especially to the chief police authorities at the several presidency towns and ports of embarkation.

6. In all cases of apprehension of deserters by persons in military employment, the reward will be drawn by the officers under whose immediate orders the captors may be serving at the time, and who will furnish to the Pay department whichever of the above certificates may be applicable to the case.

7. The foregoing rules are to be considered applicable also to Eurasian or East Indian soldiers deserters from corps composed of these classes, and raised in the country, excepting that the reward for the apprehension of a deserter from such corps will be 10 rupees.

Beyond this, preference will not be given to men of any particular class ; but respectable young men, especially those educated in the schools of Behar, the North-Western Provinces, and the Punjab, are encouraged to offer themselves, bringing certificates of character and acquirements from the Inspectors or Head Masters of the schools.

5. The holding such recommendations from the school authorities, and certificates of physical fitness from the nearest medical officers, will not be required to appear before the committees. As, however, the number who can be admitted to the college from each division is very limited, it is necessary that the school authorities should send the papers of all candidates as soon as possible after the promulgation of this order, to the Deputy Inspector General of the division, who, the recommendations being equal, will select, in preference, those whose nominations are earliest received.

6. The examination is equally open to the sons of soldiers and of persons engaged in civil occupations.

7. The candidates must be between the ages of fifteen and twenty years.

8. No candidate will be allowed to present himself for examination who is physically unfit for the duties of a soldier, and who cannot produce a written testimonial of his conduct and character. The strictest care and attention are to be exercised in examining the credentials of all candidates, who will, in addition, be required to bring regular descriptive rolls, in order that they may be identified.

9. The Deputy Inspector General of Hospitals is to prepare a general roll (in the form hereafter given) of all candidates, to be laid before the committee, the qualfication columns being left blank for the committee to fill up.

10. Committees for the examination of candidates will be convened by the officer commanding the station, upon the requisition of the Deputy Inspector General of Hospitals, and will consist of two medical officers and an interpreter.

11. These examinations will in future be final as regards the admission of the candidates into the Medical College, no subsequent examination in the College of Fort William being required.

12. Each passed candidate is to be furnished by the Deputy Inspector General of Hospitals with a descriptive roll in the subjoined form, which he is to present to the Principal of the College, and which will be his warrant for admission as a student :—

Descriptive roll of a candidate for examination for a studentship in the Military class of the Medical College.

19. The pay of military class native doctors, on appointment to the service, is fixed at 20 rupees a month in garrison or at a civil station, and 25 rupees a month in the field, of which sums 5 rupees are to be considered as batta, and deducted when on leave of absence from corps and civil stations.

20. Upon their admission they are to enter into an engagement to serve the Government as native doctors, as vacancies may occur, for a period of not less than seven years from the time of their leaving the Medical College in that capacity, unless prevented serving that period by physical inability proved before a medical committee and certified accordingly. After a service of seven years, they may demand their discharge *in time of peace.*

21. In the event of their continuing to serve, their allowances will, after seven years, and upon undergoing a successful examination, be advanced to rupees 25 in garrison or at a civil station, and rupees 30 in the field.

22. A native doctor who, from wounds or injuries received on service, shall become no longer fit to serve, will be entitled, at any period less than fifteen years, to an invalid pension of rupees 12 per mensem ; after fifteen years, to one-half of his field pay if in the military, and of his garrison pay if in the civil branch of the service ; after twenty-two years, to the whole of his pay.

Resolution, Financial department, No. 27, dated 7th April 1860.

Ditto, No. 31, dated 23rd April 1860.

Government General Order, Military department, No. 710, dated 6th July 1860.

Resolution, Financial department, No. 119, dated 16th November 1860.

"RESOLUTION.—Valuable public services connected with the reduction of the military expen-

diture and the re-organization of the military accounts in conformity with the budget system, have been performed by the Military Finance Commission, subsequently called the Military Finance department; but the time has arrived when, as directed by the Secretary of State, this office must be placed in proper relation to the Military department.

"This is the head office of the system of army accounts. The estimates for the military expenditure of the whole of India are collected here; and, after having been carefully revised, are submitted to the Financial department. The ordinary correspondence with the Military Controllers, Paymasters, and other officers connected with the accounts of the army, passes through this office; and the officer in charge of it assists the Government with his opinion upon every question relating to military expenditure which may be referred to him. In the discharge of these duties, the head of the office will, for the future, act in subordination to the Military department, and will be designated the "Accountant General" to that department. His relation to the Military department will be similar to that of the Accountant General to the War Office at Home; but it will, for the present, be for the public advantage that the ablest and most experienced Military officer available should be selected for the duty, and that the Controllers and other officers of military account in the three Presidencies should look to this office as the highest prize of their department.

"The Accountant General will not be associated with the Auditor and Accountant General as a member of the "Board of Appropriation Audit;' and, although in common with the other Account officers of the Government, he should render all the assistance in his power to the Financial department, his ordinary official relation will be entirely with the Military department.

"The subordinate establishments of Controllers, Accountants, Examiners, and Compilers in every part of India, will remain as at present. All appointments and promotions will be made by the Government in the Military department; and it will be the duty of the Accountants General to advise in all matters relating to the conditions of appointment and promotion, so as to secure the highest practicable standard of qualification. No change should, of course, be made in the scale of expenditure, nor in any of the rules relating to the accounts, without the previous sanction of the Financial department."

With reference to the above Resolution, His Excellency the Governor-General in Council is pleased to appoint Colonel A. Broome, of the Royal Artillery, to be Accountant-General to the Military department from the 1st April 1864, from which date the arrangements now notified will have effect.

Subsidiary orders with reference to the conduct of business will hereafter be issued.

The 15th March 1864.

No. 223 *of* 1864.—The following Military letter from the Right Honorable the Secretary of State for India, is published for general information and guidance :—

From Her Majesty's Secretary of State for India, to the Right Honorable the Governor-General of India in Council, No. 28, dated 30th January 1864.

Sir,—Application has been recently made to me by a paid doing-duty officer of a native regiment for the grant of half staff salary during the six months of his absence on sick certificate.

2. The application was necessarily refused, the regulations of the service at present not admitting of any of the officers belonging to native regiments on the new organization being allowed the privilege of staff officers in this respect.

3. It appears to me, however, that, under the altered circumstances of the native army, the regulations in this respect should be amended.

4. The whole of the appointments held by commissioned officers in the native regiments under the new organization, held at present alike by officers of the Staff Corps and those of the Indian army, are destined ultimately to be held entirely by officers of the Staff Corps.

5. They must be considered, therefore, in future, as staff appointments, and the whole of the officers in question must be allowed all the privileges attaching to officers holding military staff employment, including that of drawing six months half staff salary during absence on sick certificate under the regulations.

6. This rule is to apply to all such officers taking leave subsequently to the publication of the General Order by your Government, but it is in no case to have retrospective effect.

No. 225 *of* 1864.—With reference to the Government General Orders, noted in the margin,* the following Military letter from the Right Honorable the Secretary of State for India is published for general information and guidance:—

* No. 940, dated 18th September 1860.
No. 118, dated 18th February 1864.

From Her Majesty's Secretary of State for India, to the Right Hon'ble the Governor-General of India in Council, No. 27, *dated* 30*th January* 1864.

SIR,—Referring to my despatch dated 31st December 1863, No. 446, on the subject of promotion to the rank of Colonel under the 8th clause of the Royal Warrant of the 31st January 1859, I have to inform you that a communication now received from the Horse Guards states that the Secretary of State for War has brought to the notice of the Field Marshal Commanding-in-Chief that the qualifying period in the rank of Lieutenant-Colonel previously to obtaining the rank of Colonel was extended from 3 to 5 years, with the express view that no deductions from that period were to be made on account of leave of absence. His Royal Highness in consequence sees the necessity of rectifying the position of all Colonels promoted since October 1858, who may have had their promotion retarded by the practice of limiting the leave of absence to 15 months in the 5 years.

2. A similar course is to be adopted by your Government with respect to all Colonels of Her Majesty's Indian Forces promoted under the Royal Warrant of 31st January 1859, whose promotion may have been retarded, under the restriction with regard to leave of absence published in General Order, dated 18th September 1860, No. 940.

FINANCIAL DEPARTMENT.

No. 1523.

The 19th March 1864.

The following despatch from the Secretary of State for India is published for general information:—

From Her Majesty's Secretary of State for India to His Excellency the Right Hon'ble the Governor General of India in Council, (Financial)—No. 20, dated 9th February 1864.

Sir,—I have considered in Council your Financial letter, dated the 13th October 1863, No. 127, forwarding a memorial from certain uncovenanted officers at your Presidency requesting an interpretation of paras. 21 to 25 of my Financial despatch, dated the 8th December 1862, No. 205, which relate to the limitation of pensions to uncovenanted servants to £500 per annum.

2. In the letter from your Government, dated the 6th August 1862, No. 111, you stated that the uncovenanted service "cannot claim to have any rights, under the rules of 1831, beyond what may be considered to arise out of the general pledge which those rules may be taken to give, that a member of that service, when rendered incapable of further duty, shall not be discharged without some pensionary support. As regards the amount of pension to be given, the rules merely fix a limit which is not to be exceeded; and, although it has, with rare exceptions, been the practice to allow the highest pension of which the rules allow, this practice cannot be admitted to confer on the uncovenanted service any right to claim that maximum in all cases without any regard whatever to the original design and scope of the rules."

3. In that view Her Majesty's Government fully concurred. It was, therefore, decided that uncovenanted servants, appointed prior to the 19th May 1855 (the date of the Court's despatch limiting pensions to £500 per annum), whose average salary during the last five years of their service shall have exceeded Rs. 10,000 per annum, and also those who were promoted prior to the 6th August 1862 (the date of the letter from the Government of India relative to the limitation of pensions to uncovenanted servants), to offices to which salaries exceeding Rs. 10,000 per annum are attached, shall, if their average salary during the last five years of the service exceed that amount, be allowed, "in case of extraordinary merit," pensions exceeding £500 per annum, the amount of excess to be governed by the merits and services of the retiring servant, and to be limited to an amount consistent with a due regard to the public interests. In regard to uncovenanted servants who have rendered approved services of only an ordinary character, the pension must in no case exceed £500 per annum.

4. An uncovenanted servant, promoted subsequently to the 6th August 1862 to an office to which a salary exceeding Rs. 10,000 per annum is attached, is not to be granted an increased pension in consequence of the increase to his salary.

No. 70.—The following extract from General Orders by his Excellency the Commander-in-Chief is re-published:—

Head Quarters, Camp Rawul Pindee, 20th *January* 1864.

The following instructions respecting the duties of European officers serving with native corps, with reference to G. O. G. G. No. 161 A, dated 29th October 1863, published for general information and guidance :—

I. The commandant in both cavalry and infantry will be relieved from all matters connected with the direct payment of the men or charge of the regimental accounts, and from drawing any contract or contingent allowances.

He will thus be free to devote his time to the legitimate exercise of the duties of supervision and command over every detail connected with his regiment ; but it is not intended, by placing European officers in charge of wings and squadrons, and by assigning definite duties to all, to weaken the entire control of commanding officers over every portion of their regiments.

II.—European officers will command wings in the infantry, and squadrons in the cavalry, leaving the command of troops and companies in the hands of the native officers. The latter should act as captains of companies or troops as far as possible, except as respects payment of the men and repair of arms and accoutrements, for which squadron and wing officers will be entirely responsible and draw the regulated allowances.

III.—Although native officers will thus command troops and companies, it is not intended that European officers may not occasionally be detailed

or employed with single troops, or with one or two companies, when thought desirable.

IV.—The officers of squadrons and wings will, as far as possible, be detached with their own squadrons and wings, and will be responsible, in quarters and the field, for their appearance, discipline, and efficiency. On parade the wing officers will act as majors, and squadron officers will command their squadrons.

V. *All the* European officers in the infantry are to be considered mounted officers, and to be mounted on parade, on the line of march, or in action, in the same manner as the Field officers and Adjutants of British regiments.

VI. The Adjutant of cavalry and infantry, and the Quarter Master in the infantry, will perform the duties usually appertaining to these appointments.

VII. The doing-duty officer of the cavalry is intended *ordinarily* to remain at regimental head quarters, unless acting in another situation for some absent officer of the corps, and he should have charge of such duties as would devolve upon a Quarter Master were such an officer allowed in native cavalry under the new organization, that is, he is to have charge of all public or regimental stores and ammunition, to superintend the preparation of equipment, and keep the accounts of the regimental horse fund under the direction of the commanding officer. He would act as a second regimental staff officer in the field, or take charge of a squadron when necessary. If a wing was detached, he might accompany it to perform the duties of Adjutant, making over, for the time, the charge of the books in his keeping to a squadron officer remaining at head quarters.

While performing these duties and relieving the commanding officer from the immediate charge of regimental accounts, which he is understood to keep personally in some regiments, he would be afforded a complete insight into the system of the native cavalry, and be preparing himself for any post in that branch of the service.

VIII. In the infantry it does not appear practicable to assign any very specific duties to the doing-duty officer; but, if one of the senior officers was absent, he might act as Quarter Master, and if a wing was detached, he should accompany it and perform the duties of Adjutant (without extra pay), or he might himself be sent in command of a smaller detachment, if opportunity offered, after he had become acquainted with the regimental system.

He may, when at head quarters, assist the Adjutant in the drills, and generally be employed under the directions of the commanding officer in such manner as would tend to qualify him for the higher duties of the corps.

IX. It will be observed that wing and squadron officers and the doing-duty officer of the cavalry have allowances, a portion of which must be applied to *writing*; but it is not considered essential that each should have separate writers, any more than it has been hitherto required that there should be writers for each company under the old organization.

POSTAL NOTICE.

Dated Lahore, the 29th March 1864.

The following Postal Notice, together with a memo. on the subject by the Officiating Director-General of the Post Office, is promulgated for general information.

The rules are clear and explicit, and call for no further explanation from me.

Inspectors and Superintendents will be careful to see that the rules with regard to the new "Pattern Post" are studied and comprehended by their native subordinates; and this should be done without delay, as it will be observed that the commencement of the despatch of "Pattern Packets" will be by the first mail after the 1st Proximo from London, and after the 1st May from India.

F. R. HOGG,
Post Master General Punjab and Sindh.

The public are informed that an arrangement has been made with the London Post Office for sending patterns of merchandize by post between India and the United Kingdom, under the rules, and at the rates of postage, indicated below. The arrangement will commence, as regards despatches from India, from the 1st May next. Intimation has been received from the London Post Office that the arrangement will commence, as regards despatches thence, from the 1st April.

1. The patterns must not be of intrinsic value. This rule excludes all articles of a saleable nature, and whatever may have a value of its own, apart from its mere use as a pattern. The quantity of any material sent ostensibly as a pattern must not be so great that it could fairly be considered as having on this ground an intrinsic value.

2. The patterns must not bear any writing other than the address of the persons for whom they are intended, a manufacturer's or trade mark, numbers and the prices of the articles, nor must they contain any letter closed or open, or any enclosure, sealed, or otherwise closed, against inspection.

3. The patterns must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material; but closed bags, although transparent, must not be used for this purpose.

4. The rule which forbids the transmission through the post of any explosive or dangerous substance, will, of course, be applicable to patterns; and no article likely to injure the contents of the mail bags is to be sent.

5. No pattern packet can be received if it exceeds two feet in length, width, or depth, or three pounds in weight.

6. The inland transit in pattern packets will be by banghy post.

7. The following postage rates (prepaid by a stamp or stamps) will be charged on a pattern packets sent under these regulations by post to the United Kingdom. The rates, being conso-

lidated rates, no inland postage is leviable in addition : —

Calcutta,
1st March 1864.

Memorandum for the guidance of Postal Officers.

1. It will be observed that the general conditions are similar to those for book packets between India and the United kingdom. Pattern packets should be entered in the chullans, &c., in the same way as book packets, but under their proper designation, viz., "Pattern Packets." Pattern packets will, like book packets, be chargeable in respect of railway transit. In other respects also not detailed in the regulations pattern packets will be treated like book packets.

2. Unpaid or insufficiently paid pattern packets received from the United Kingdom will be charged at the rates mentioned in paragraphs 8, 9, and 10 of the Postal Notice.

3. The following instructions regarding the credit of postage to the London and Indian offices respectively are intended specially for the Post Masters of the Presidency towns (Calcutta, Madras, and Bombay) and for the Post Masters of Singapore, Penang, Aden.

(A) Fully prepared pattern packets.
(B) Pattern packets prepaid with only a single rate of postage (paragraph 8 of Postal Notice.)
Will be treated in account in the same manner as book packets similarly paid.

(C) Pattern packets prepaid with less than a single rate (paragraph 9 of Postal Notice.)
Will be treated in account on the same principle as that on which book packets prepaid with only a single rate of postage are treated, *i. e.*, the additional postage over and above the full ordinary postage will be regarded as a fine and equally divided between the London and Indian offices.

(D) Pattern packets wholly unpaid (para 10 of postal notice,
In this case the treatment in account will be of a new character, the whole postage, ordinary and additional, being divided equally between the London and Indian offices.

4. It is expected that the Presidency post offices and the offices of Singapore, Penang, and Aden, will shortly be supplied from the London office with revised forms of letter-bills including the headings in respect of pattern packets; but, should these revised forms not be received before the system comes into operation, manuscript additions to the existing letter-bills can be made, as shewn in the enclosed form.

Dated Lahore, the 29th March 1864.

The following Postal Notice, together with a memo. on the subject by the Officiating Director-General of the Post Office, is promulgated for general information.

The rules are clear and explicit, and call for no further explanation from me.

Inspectors and Superintendents will be careful to see that the rules with regard to the new "Pattern Post" are studied and comprehended by their native subordinates; and this should be done without delay, as it will be observed that the commencement of the despatch of "Pattern Packets" will be by the first mail after the 1st Proximo from London, and after the 1st May from India.

F. R. HOGG,
Post Master General Punjab and Sindh.

The public are informed that an arrangement has been made with the London Post Office for sending patterns of merchandize by post between India and the United Kingdom, under the rules, and at the rates of postage, indicated below. The arrangement will commence, as regards despatches from India, from the 1st May next. Intimation has been received from the London Post Office that the arrangement will commence, as regards despatches thence, from the 1st April.

1. The patterns must not be of intrinsic value. This rule excludes all articles of a saleable nature, and whatever may have a value of its own, apart from its mere use as a pattern. The quantity of any material sent ostensibly as a pattern must not be so great that it could fairly be considered as having on this ground an intrinsic value.

2. The patterns must not bear any writing other than the address of the persons for whom they are intended, a manufacturer's or trade mark, numbers and the prices of the articles, nor must they contain any letter closed or open, or any enclosure, sealed, or otherwise closed, against inspection.

3. The patterns must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material; but closed bags, although transparent, must not be used for this purpose.

To be Colonel in the Army.

Major and Brevet Lieutenant Col. Alfred Thomas Wilde, C. B., of the Madras Staff Corps.	20th [illegible] 1863.

No. 278 of 1864.—With reference to Government General Order No 494, of 30th May 1861, the following rules for the issue of good conduct pay to Sowars of the Bengal Cavalry are to have effect from the 1st May 1864 :—

There will be three rates of good conduct pay—

The 1st after 6 years' service, Rupee one per mensem, making the total pay ... Rs. [illegible]

The 2nd after 10 years' service, Rupees two per mensem, making the total pay [illegible]

The 3rd after 15 years' service, Rupees three per mensem, making the total pay ... [illegible]

A Commanding Officer may award the rate of good conduct pay to which a Sowar is eligible on his completing the prescribed period of service, provided the Sowar has not been convicted by a court martial or a summary trial within two years of the date on which he becomes eligible to the reward.

Conviction by a court martial or summary trial will deprive a Sowar of the good conduct pay he is receiving, and he must serve two years with the entire approval of his Commanding Officer before he will be eligible for restoration to the 1st rate of one rupee per mensem, and an additional year of approved good conduct will be necessary to entitle him to each of the 2nd and 3rd rates of two rupees and three rupees per mensem.

The Commanding Officer of a regiment, who has reason to be dissatisfied with the conduct of a Sowar, may withhold the 1st, 2nd, and 3rd rate of good conduct pay, or he may deprive any Sowar [illegible] in receipt of such reward of either the 1st, 2nd, or 3rd rate, or reduce him from a higher to a lower rate, and he may grant or restore either of the rates when the Sowar's conduct has been satisfactory. But the withholding, granting, depriving, and restoring good conduct pay will be subject to such limits and [illegible] as may from time to time be prescribed by His Excellency the Commanding-in-Chief.

The good conduct pay is to be considered a part of the pay proper of the Sowar, and it will be included in calculating the amount of gratuity or [illegible]

charge; but it will not tend to augment pension or Order of Merit pay.

The award and forfeiture of good conduct pay is invariably to be notified in Regimental Orders.

All Sowars who on the 1st May next have completed 6, 10, and 16 years' service, will respectively be eligible from that date to the 1st, 2nd, and 3rd rates, subject to the provisions of the above rules.

No. 279 *of* 1864.—In modification of the Government General Order noted in the margin, His Excellency the Governor General in Council is pleased to notify that all Privates of the Native Armies of Bengal, Madras, and Bombay, who now draw additional pay for good conduct and length of service, will hereafter be allowed to receive it after six and ten years' service respectively, instead of after the periods of service hitherto laid down.

Government General Order No. 83, dated 17th April 1837.

All Privates who on the 1st May next may have completed six and ten years' service will, respectively, be eligible from that date to the benefits of this regulation, subject to the conditions of good conduct laid down in the Government General Order of 1837.

The provisions of this order are not applicable to any of the Native Cavalry on the new organization, but are extended to the Artillery and Infantry of the Punjab Irregular Force.

No. 280 *of* 1864.—His Excellency the Governor General in Council having had under consideration the position and pay of Native Commissioned Officers of Infantry, it is hereby notified that hereafter these officers shall, like those in the Native Cavalry, be placed in classes and on the following rates of pay, including batta at the cantonment rate :—

Subadars	2 at	Rupees	100	per mensem.
,,	2 at	,,	80	,,
,,	4 at	,,	67	,,
Jemadars	4 at	,,	35	,,
,,	4 at	,,	30	,,

One of the Subadars will, as at present, hold the post of Subadar-Major, with an additional allowance of Rs. 25 per mensem.

2. The pay of Native Officers of Infantry will, as in the Cavalry, be regulated by merit; so that the most deserving may enjoy the superior rates, whilst in matters of duty the rank and position of all remain unaffected.

The power of removing from the higher to the lower rates officers who, through inattention and carelessness, cease to deserve the increased meritorious service pay, and also of advancing officers to the higher rates on all occasions of vacancies, is vested in Commanding Officers; but whenever a Native officer shall be disrated, the dates of disrating and of admission to superior pay are invariably to be recorded in the Muster Rolls.

3. A full record of the reason for appointing or disrating will be entered in the Regimental Order Books, and such other regimental record as His Excellency the Commander-in-Chief may direct.

4. This Order will have effect from the 1st May 1864.

No. 281 *of* 1864.—His Excellency the Governor General in Council is pleased to confer the temporary rank of Brigadier General on Colonel A. T. Wilde, C. B., Madras Staff Corps, Commandant Corps of Guides, while officiating as Commandant of the Punjab Irregular Force.

POSTAL NOTICE.

Dated Lahore, the 29th March 1864.

The following Postal Notice, together with a memo. on the subject by the Officiating Director-General of the Post Office, is promulgated for general information.

The rules are clear and explicit, and call for no further explanation from me.

Inspectors and Superintendents will be careful to see that the rules with regard to the new "Pattern Post" are studied and comprehended by their native subordinates; and this should be done without delay, as it will be observed that the commencement of the despatch of "Pattern Packets" will be by the first mail after the 1st Proximo from London, and after the 1st May from India.

F. R. HOGG,
Post Master General Punjab and Sindh.

The public are informed that an arrangement has been made with the London Post Office for sending patterns of merchandize by post between India and the United Kingdom, under the rules, and at the rates of postage, indicated below. The arrangement will commence, as regards despatches from India, from the 1st May next. Intimation has been received from the London Post Office that the arrangement will commence, as regards despatches thence, from the 1st April.

1. The patterns must not be of intrinsic value. This rule excludes all articles of a saleable nature, and whatever may have a value of its own, apart from its mere use as a pattern. The quantity of any material sent ostensibly as a pattern must not be so great that it could fairly be considered as having on this ground an intrinsic value.

2. The patterns must not bear any writing other than the address of the persons for whom they are intended, a manufacturer's or trade mark, numbers and the prices of the articles, nor must they contain any letter closed or open, or any enclosure, sealed, or otherwise closed, against inspection.

3. The patterns must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material; but closed bags, although transparent, must not be used for this purpose.

4. The rule which forbids the transmission through the post of any explosive or dangerous substance, will, of course, be applicable to patterns; and no article likely to injure the contents of the mail bags is to be sent.

5. No pattern packet can be received if it exceeds two feet in length, width, or depth, or three pounds in weight.

6. The inland transit in pattern packets will be by banghy post.

7. The following postage rates (prepaid by stamp or stamps) will be charged on a pattern packets sent under these regulations by post to the United Kingdom. The rates, being consolidated rates, no inland postage is leviable in addition: —

8. If the packets be *prepaid with a single rate of postage* (as given in column 1 of the above table), the full rate chargeable being more, they will be forwarded charged with the deficient postage together with an additional single rate.

9. If the packets be *prepaid with less than a single rate of postage*, they will be forwarded charged with double postage less the amount actually paid.

10. If the packets be *wholly unpaid*, they will be forwarded charged with double postage.

A. M. MONTEATH,
In charge of the Office of Dir. Genl. of the Post Offices of India.

CALCUTTA,
1st March 1864.

Memorandum for the guidance of Postal Officers.

1. It will be observed that the general conditions are similar to those for book packets between India and the United kingdom. Pattern packets should be entered in the chullans, &c., in the same way as book packets, but under their proper designation, viz., " Pattern Packets." Pattern packets will, like book packets, be now chargeable in respect of railway transit. In other respects also not detailed in the regulations, pattern packets will be treated like book packets.

2. Unpaid or insufficiently paid pattern packets received from the United Kingdom will be charged at the rates mentioned in paragraphs 8, 9, and 10 of the Postal Notice.

3. The following instructions regarding the credit of postage to the London and Indian offices respectively are intended specially for the Post Masters of the Presidency towns (Calcutta, Madras, and Bombay) and for the Post Masters of Singapore, Penang, Aden.

(A) Fully prepared pattern packets.
(B) Pattern packets prepaid with only a single rate of postage (paragraph 8 of Postal Notice.)

Will be treated in account in the same manner as book packets similarly paid.

(C) Pattern packets prepaid with less than a single rate (paragraph 9 of Postal Notice.)

Will be treated in account on the same principle as that on which book packets prepaid with only a single rate of postage are now treated, *i. e.*, the additional postage over and above the full ordinary postage will be regarded as a fine and equally divided between the London and Indian offices.

(D) Pattern packets wholly unpaid (para 10 of postal notice,

In this case the treatment in account will be of a new character, the whole postage, ordinary and additional, being divided equally between the London and Indian offices.

4. It is expected that the Presidency town post offices and the offices of Singapore, Penang, and Aden, will shortly be supplied from the London office with revised forms of letter-bills including the headings in respect of pattern packets; but, should these revised forms not be received before the system comes into operation, manuscript additions to the existing letter-bill can be made, as shewn in the enclosed form.

(Signed) A. M. MONTEATH,
In charge of the Office of Director General of the Post Office of India.

Dated Lahore, the 29th March 1864.

The following Postal Notice, together with a memo. on the subject by the Officiating Director-General of the Post Office, is promulgated for general information.

The rules are clear and explicit, and call for no further explanation from me.

Inspectors and Superintendents will be careful to see that the rules with regard to the new "Pattern Post" are studied and comprehended by their native subordinates; and this should be done without delay, as it will be observed that the commencement of the despatch of "Pattern Packets" will be by the first mail after the 1st Proximo from London, and after the 1st May from India.

F. R. HOGG,

Post Master General Punjab and Sindh.

The public are informed that an arrangement has been made with the London Post Office for sending patterns of merchandize by post between India and the United Kingdom, under the rules, and at the rates of postage, indicated below. The arrangement will commence, as regards despatches from India, from the 1st May next. Intimation has been received from the London Post Office that the arrangement will commence, as regards despatches thence, from the 1st April.

1. The patterns must not be of intrinsic value. This rule excludes all articles of a saleable nature, and whatever may have a value of its own, apart from its mere use as a pattern. The quantity of any material sent ostensibly as a pattern must not be so great that it could fairly be considered as having on this ground an intrinsic value.

2. The patterns must not bear any writing other than the address of the persons for whom they are intended, a manufacturer's or trade mark, numbers and the prices of the articles, nor must they contain any letter closed or open, or any enclosure, sealed, or otherwise closed, against inspection.

3. The patterns must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material; but closed bags, although transparent, must not be used for this purpose.

4. The rule which forbids the transmission through the post of any explosive or dangerous substance, will, of course, be applicable to patterns; and no article likely to injure the contents of the mail bags is to be sent.

5. No pattern packet can be received if it exceeds two feet in length, width, or depth, or three pounds in weight.

6. The inland transit in pattern packets will be by banghy post.

7. The following postage rates (prepaid by a stamp or stamps) will be charged on a pattern packets sent under these regulations by post to the United Kingdom. The rates, being consolidated rates, no inland postage is leviable in addition :—

Memorandum for the guidance of Postal Officers.

1. It will be observed that the general conditions are similar to those for book packets between India and the United kingdom. Pattern packets should be entered in the chullans, &c., in the same way as book packets, but under their proper designation, viz., "Pattern Packets." Pattern packets will, like book packets, be now chargeable in respect of railway transit. In other respects also not detailed in the regulations, pattern packets will be treated like book packets.

2. Unpaid or insufficiently paid pattern packets received from the United Kingdom will be charged at the rates mentioned in paragraphs 8, 9, and 10 of the Postal Notice.

3. The following instructions regarding the credit of postage to the London and Indian offices respectively are intended specially for the Post Masters of the Presidency towns (Calcutta, Madras, and Bombay) and for the Post Masters of Singapore, Penang, Aden.

(A) Fully prepared pattern packets.
(B) Pattern packets prepaid with only a single rate of postage (paragraph 8 of Postal Notice.)

Will be treated in account in the same manner as book packets similarly paid.

(C) Pattern packets prepaid with less than a single rate (paragraph 9 of Postal Notice.)

Will be treated in account on the same principle as that on which book packets prepaid with only a single rate of postage are now treated, *i. e.,* the additional postage over and above the full ordinary postage will be regarded as a fine and equally divided between the London and Indian offices.

In this case the treatment in account

(D) Pattern packets wholly unpaid (para 10 of postal notice,

of a new chara whole postage, and additional, divided equally between the London and offices.

4. It is expected that the Presidency post offices and the offices of Singapore, and Aden, will shortly be supplied from London office with revised forms of including the headings in respect of packets; but, should these revised forms received before the system comes into manuscript additions to the existing can be made, as shewn in the enclosed

BOOK CIRCULAR { No. II / 14-528. } of 1864.

JUDICIAL. (Civil.) The following is notified for information and guidance.

E. L. BRANDRETH,
Offg. Judicial Commissioner Punjab.

No. 1,377.

Extract from the Proceedings of the Government of India, in the Financial Department, dated 11th March 1864.

Dated 18th June 1863.

From J. Graham, Esquire, Officiating Advocate-General, to C. U. Aitchison, Esquire, Under-Secretary to the Government of India, with the Governor-General.

In reply to your letter No. 282, dated 10th instant, with enclosure (herewith returned), I have the honor to state that I agree in the opinion of the Chief Commissioner of Oude, that the only special exemption to which officers and soldiers are now entitled, is that provided by Article 8 *(Mukhtiarnamahs executed by an officer or soldier of the Army)* of Schedule B. of the present Stamp Act; the Act XV of 1845, which exempted only plaints filed by officers or soldiers in suits not founded on transactions of a commercial nature, having been repealed. And I am not aware of any valid grounds upon which a copy of the final order transmitted to an officer or soldier, ought to be treated as exempt from stamp duty.

A. M. MONTEATH,
In charge of the office of Director General of Post offices of India.

Calcutta, 7th April 1864.

Dated Lahore, the 29th March 1864.

The following Postal Notice, together with a memo. on the subject by the Officiating Director-General of the Post Office, is promulgated for general information.

The rules are clear and explicit, and call for no further explanation from me.

Inspectors and Superintendents will be careful to see that the rules with regard to the new "Pattern Post" are studied and comprehended by their native subordinates; and this should be done without delay, as it will be observed that the commencement of the despatch of "Pattern Packets" will be by the first mail after the 1st Proximo from London, and after the 1st May from India.

F. R. HOGG,
Post Master General Punjab and Sindh.

The public are informed that an arrangement has been made with the London Post Office for sending patterns of merchandize by post between India and the United Kingdom, under the rules, and at the rates of postage, indicated below. The arrangement will commence, as regards despatches from India, from the 1st May next. Intimation has been received from the London Post Office that the arrangement will commence, as regards despatches thence, from the 1st April.

1. The patterns must not be of intrinsic value. This rule excludes all articles of a saleable nature, and whatever may have a value of its own, apart from its mere use as a pattern. The quantity of any material sent ostensibly as a

pattern must not be so great that it could fairly be considered as having on this ground an intrinsic value.

2. The patterns must not bear any writing other than the address of the persons for whom they are intended, a manufacturer's or trade mark, numbers and the prices of the articles, nor must they contain any letter closed or open, or any enclosure, sealed, or otherwise closed, against inspection.

3. The patterns must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material; but closed bags, although transparent, must not be used for this purpose.

4. The rule which forbids the transmission through the post of any explosive or dangerous substance, will, of course, be applicable to patterns; and no article likely to injure the contents of the mail bags is to be sent.

5. No pattern packet can be received if it exceeds two feet in length, width, or depth, or three pounds in weight.

6. The inland transit in pattern packets will be by banghy post.

7. The following postage rates (prepaid by a stamp or stamps) will be charged on a pattern packets sent under these regulations by post to the United Kingdom. The rates, being consolidated rates, no inland postage is leviable in addition:—

1. It will be observed that the general conditions are similar to those for book packets between India and the United kingdom. Pattern packets should be entered in the chullans, &c., in the same way as book packets, but under their proper designation, viz., "Pattern Packets." Will be treated in account on the same principle as that on which book packets prepaid with only a single rate of postage are now treated, *i. e.*, the additional postage over and above the full ordinary postage will be regarded as a fine and equally divided between the London and Indian offices.

(D) Pattern packets wholly unpaid (para 10 of postal notice,

In this case the treatment in account will be of a new character, the whole postage, ordinary and additional, being divided equally between the London and Indian offices.

4. It is expected that the Presidency town post offices and the offices of Singapore, Penang, and Aden, will shortly be supplied from the London office with revised forms of letter-bills including the headings in respect of pattern packets; but, should these revised forms not be received before the system comes into operation, manuscript additions to the existing letter-bill can be made, as shewn in the enclosed form.

LEAVE OF ABSENCE TO UNCOVENANTED SERVANTS.

These rules are applicable to all officers of uncovenanted civil service receiving salaries of not less than Rs. 100 a month, whether they receive their appointments direct from Government or from heads of offices and departments.

The following are the kinds of leave allowed:

I. Leave on medical certificate.
II. Leave on private affairs and furlough.
III. Privilege leave.
IV. Preparatory or additional leave.

General Rules.

1. All applications for leave must be made publicly, through the regular channel, of the department to which the applicant belongs.

2. Officers appointed by Government may obtain privilege leave from the heads of their respective departments, when the latter are authorized to exercise this power; but in other cases, leave must be granted by Government.

3. Officers appointed by heads of offices and departments can obtain any leave under these rules without reference to Government; but the authorities granting such leave must furnish the Civil or Military Audit office which passes the pay bill of their establishment, a monthly return of the leave granted by them according to the form given in Appendix A.

4. Absence without leave will involve loss of salary, and render the absentee liable to loss of appointment.

5. No leave of absence shall have retrospective effect, except in case of severe illness, to be attested by a medical certificate in the prescribed form.

Applications for leave on medical certificate.

6. Applications for leave on medical certificate must be accompanied by a statement from the applicant's medical attendant, distinctly stating, from personal observation, the nature of the disease, its symptoms, causes and duration, and by a certificate* from the medical officer of the station or district, or, in a presidency town, from a presidency official surgeon, certifying, after careful personal investigation, the necessity for temporary absence, and the period for which absence is, to the best of his judgment, absolutely requisite for restoration to health. If the requisite leave be for a longer period than six months the certificate must be countersigned by the Superintending Surgeon of the division in which the applicant may be employed. In case of leave beyond sea, the certificate must be also submitted, with the statement of the case, for the signature of the Principal Inspector General of the Medical department.

Extension of leave on medical certificate.

7. An application for extension of leave when the applicant be in India must be accompanied by a certificate to a like effect from the medical officer attendant, together with a statement shewing sufficient reason for the extension sought, and such certificate must be countersigned by the Principal Inspector General of the Medical department, or by the Superintending Surgeon of the division in which the applicant may be residing.

* In the form given in Appendix B.

applicant shall have proceeded beyond the territories under the Government of India, he must furnish a certificate and statement to the required effect from a surgeon or physician at the place of his temporary residence by whom he has been attended; such attendance, and the period of it, to be stated, and the certificate to be countersigned, after *personal* examination, by the examining physician of the India office, if the absentee is in England,—or by the principal medical authority of the colony or country to which the absentee may have proceeded.

8. If any of the above particulars be neglected, or the omission of any one of them unsatisfactorily explained, the leave will be refused.

Application for leave on private affairs.

9. Leave on private affairs and furlough will be granted by Government, or by authorized officers, on sufficient cause being shewn, and when the concession of the indulgence may in no way interfere with the interest of the public service.

Extention of leave to date of arrival of vessel.

10. When an officer on leave in England is permitted by the Home Government to return to duty by a particular vessel, this permission, if necessary, will be held equivalent to an extension of leave until the arrival in India of the vessel on which the officer is permitted to return.

Leave on medical certificate.

11. Leave on medical certificate, with allowances, must in no case exceed three years in all, and not more than two years may be taken at one time. Subject to these restrictions, leave within Indian limits may be granted, with allowances, on medical certificate, as often as sufficient cause is shewn; but beyond Indian limits, such leave cannot be granted more than twice during the whole period of service. Should any further leave be applied for on medical certificate it may be granted, but without any allowance. Preparatory leave counting as service towards pension, can only be admitted in regard to two periods of leave.

Leave on private affairs and furlough.

12. Leave on private affairs and furlough, with retention of office, may be granted as follows:—

1*st*.—*Leave on private affairs*;—For six months in one period,—which leave may be repeated after intervals of six years.

2*nd*.—*Or a furlough* for one year after ten years' service, and a second furlough, also for one year, after eighteen years' service in India,—such absence being limited to two years during the whole period of service.

13. On taking leave under the preceding rule, for the first time, an officer must decide whether he will apply for leave on private affairs, or for furlough; and, having once exercised his option and obtained leave accordingly, he will not, during the remainder of his service, be eligible to the other description of leave.

14. Furlough, and leave on private affairs taken in India will reckon from the date of leaving office to the date of return thereto. Furlough, and leave on private affairs, taken beyond India, will reckon from the sailing of the vessel on which the officer embarks to the date of his return to India.

15. Furlough, or leave on private affairs, cannot be taken in continuation of privilege leave.

Privilege leave.

16. Privilege leave, when it can be granted without injury to the public service, and without additional expense to the State, may be allowed for not more than one month in each calendar year, to be taken either in one period or in not more than two instalments. This leave is not allowed to accumulate, and will, therefore, lapse if not taken within the year.

17. Privilege leave for one month in each calendar year may be allowed to officers who have not been absent on leave for eleven months immediately preceding; unless they took their last privilege leave in two instalments, in which case the indulgence will not be available until eleven months after the expiration of the first instalment, and six months after the expiration of the second instalment of the previous year's privilege leave.

Preparatory leave.

18. Preparatory or additional leave is allowed to officers proceeding to or from a sanatarium on medical certificate, or to or from the port of embarkation from India to Europe on private affairs, furlough, or medical certificate, and is limited to such period as the authority granting leave may think sufficient. Officers proceeding from Presidency towns on sick leave beyond sea will be allowed fourteen days' for preparation.

19. Officers retiring from the service on pension will be allowed fourteen days' leave on half pay, provided the indulgence can be given without detriment or extra expense to the public service.

Absentee Pay.

20. Absentee pay, if at half salary, shall in no case exceed Rupees 6,000 or £600 per annum,—or if at one-fourth salary, shall not exceed £300 per annum. Within these limitations absentee pay will be given as follows:—

I. To an officer absent on sick leave in or out of India, half salary for the first fifteen months of each period of absence, (or—if the leave be taken in short periods in India,—for the first thirty months taken from time to time, provided that half salary be not drawn for more than fifteen months at any one time), and one-fourth salary during the remainder of his absence on allowances.

II. To an officer on leave on private affairs—one-half of his salary for a period not exceeding six months of continuous absence, and for any further period of preparatory leave which may be granted to him. But if an officer absent on private affairs obtain an extension of leave on medical certificate, he will be subject for the whole period of his absence to the rules for sick leave.

III. To an officer proceeding on furlough whose salary does not exceed Rupees 200 per month—one-half of his salary, provided, however, that it shall not exceed Rupees 800 or £80 per annum. If the absentee's salary shall be—

Above Rs. 200, and not exceeding	400 per month,	he may be granted an annual allowance of	Rs. 1,300	or £130

V. To an officer on privilege leave—full pay.

21. An officer who overstays privilege leave by not more than one month, will forfeit pay for the period in excess, but if he exceed his leave by more than one month, his office will become vacant. An officer on privilege leave who may resign the service, or who may obtain sick leave without first rejoining, will, in the former case, forfeit his salary for the period of privilege leave, and in the latter case be subject to the rules for sick leave for the whole period of his absence.

Rules for Joining Office.

22. Time allowed for joining an appointment will be fixed by the authority conferring the appointment.

23. An officer entering the service of the Government is not entitled to any salary before joining his appointment, but when transferred from one appointment to another of equal or higher value, he will draw so much of the salary of his new office as may be equal to that of his former appointment.

Payments of Absentee Allowances.

24. Officers absent on privilege leave cannot draw pay until their return to duty.

25. Officers proceeding to England on furlough, or on private affairs, or on medical certificate, must obtain certificates from the Civil Pay Master, in the form given below, for submission to the India office on their arrival in London:—

					In Calcutta	

26. But if they desire to draw their allowances through their agents in India, the latter must execute a guarantee to refund over-payments. When officers remain in India and draw their allowances themselves, and attach to their bills life certificates attested by a Deputy Magistrate or a Covenanted District Officer, they will not be required to furnish any security.

SUPERANNUATION ALLOWANCES AND PENSIONS.

TO

UNCOVENANTED SERVANTS.

1. These rules are applicable to all officers of the Uncovenanted Civil Service in the receipt of more than ten rupees a month on a permanent establishment, with the following exceptions :—

I. Jemadars, sowars, peons, lascars, boatmen, smiths, artificers, and all those engaged in any handicraft, laborers, and other inferior servants.

II. Officers whose whole time is not devoted to the duties of their offices.

III. Officers not paid from the general revenues of the State, whose eligibility to pension may not be provided for by an order issued expressly for the particular case by the Government of India, and approved by the Right Hon'ble the Secretary of State.

VI. Officers for whom other pension rules or separate superannuation funds are provided.

APPLICATIONS FOR PENSION.

2. Applications for pension must be submitted in a letter to Government by the head of the office or department in which the applicant may be employed, who shall certify whether the character, conduct, and past service of the applicant are such as to entitle him to the favorable consideration of Government.

3. Every application shall be accompanied by a register prepared according to Form A. in the Appendix. In cases of other than a good service pension, every application shall be accompanied by a medical certificate, stating the applicant's incapacity for further service, with the cause thereof, and whether it has been induced by irregular or intemperate habits.

4. Applicants for a superannuation allowance must be examined by the Principal Inspector General of the Medical department, if serving at the Presidency, or by a Military Invaliding Committee, if serving elsewhere within a moderate distance of a station at which a Military Invaliding Committee is periodically assembled. It is optional, however, with the Local Government to accept the certificate of a single medical officer, or to convene a Special Invaliding Committee at a convenient civil station, if the applicant be serving at an inconvenient distance from a station where a Military Invaliding Committee can be assembled.

5. Good service and superannuation allowances on retirement, sanctioned under these rules by the Local Governments, will be reported to the Government of India in quarterly returns in the form given in Appendix B.

ALLOWANCES ON RETIREMENT.

6. On production by an applicant of such medical certificates as shall satisfy the Government under which he may be serving of his incapacity to serve longer in India, he may be allowed—

I. Under fifteen years' service, a gratuity not exceeding twelve months' salary.

* II. After fifteen years' service, one-third of his average salary, (and of his personal allowances if any,) during the previous five years, provided that in no case shall a pension be granted exceeding the sum of Rs. 3,000 per annum, whatever the amount of salary, nor of Rs. 2,000 per annum, if the salary shall not exceed Rs. 12,000 per annum.

* III. After twenty-five years' service, one-half of his average salary, (and of his personal allowance, if any,) during the previous five years, provided, however, that in no case shall a pension be granted exceeding Rs. 5,000 per annum, whatever the amount of salary, nor exceeding Rs. 4,000 per annum, if the salary shall not exceed Rs. 12,000 per annum.

7. After thirty years' service or upwards, a pension may be granted, without production of medical certificate, of the same amount and subject to the same limitation as that sanctioned for twenty-five years' service on medical certificate. This pension, as the reward of faithful, efficient discharge of duty for thirty years, is termed a good service pension.

8. Pensions of the full amount authorized in paragraphs 5 and 6 are to be granted only as the reward of approved service. In any case in which an uncovenanted servant, without having incurred the penalty of removal from Government employ, shall nevertheless, in the opinion of the Government under which he has been serving, not be entitled to the full amount of pension, the Local Government will make such a reduction in the amount of pension as it shall consider just.

9. The foregoing rates of pension and gratuity are applicable also, without the production of a medical certificate of unfitness for service, to officers discharged on reduction of establishment.

SERVICE TOWARDS PENSION.

10. Dismissal for misconduct entails forfeiture of the benefit of past service.

11. Service as a substitute does not count towards pension.

12. Periods of service before the age of 22, or of absence on other than privilege leave and preparatory leave, shall not count towards pension. Nor shall preparatory leave be allowed to count as service if it is granted in addition to leave on medical certificate to an officer who has enjoyed leave of the latter description on two previous occasions.

13. The whole of the service in virtue of which pension is claimed must have been passed in an eligible grade and on a permanent establishment; but claims barred by this rule will be especially considered if the promotion from an ineligible grade was bestowed as a reward for meritorious service or for good conduct.

14. The period of service must be continuous, but in case of the abolition of the office held by an officer, and his being subsequently employed by Government, his first period of service is to be taken into account.

GRATUITIES.

15. When an officer is discharged with a gratuity under these rules on reduction of establishment, the gratuity will not be given to him in one sum, but in monthly instalments of a month's pay until the full amount is paid. Should he be re-employed before or after the period for which gratuity is allowed, he will have the option of refunding the gratuity and recovering his former service, or of forfeiting that service by retaining the gratuity. In the latter case, any balance of gratuity remaining undrawn at the date of his re-employment may be paid to him.

PAYMENT OF PENSIONS.

16. Payment of pension will commence from the date on which the applicant ceases to be borne on the establishment, or from that of his application, whichever may be the later date.

* *Clauses II and III will not affect the operation of the orders of the 19th March 1864.*

17. No pension shall be payable in arrear, for a period exceeding six months, without the express sanction of Government obtained through the Civil Pay Master,—unless the cause of the suspension of payment shall have been the neglect, order, or act of some public officer, and beyond the control of the pensioner, when the Civil Pay Master, on a reference being made to him, shall exercise his discretion in passing arrears for payment, or submit a representation of the case for the information and orders of Government, as he shall consider proper.

No. 1916.

His Excellency the Governor General in Council is pleased to direct the publication of the following extract from a Financial despatch from the Right Hon'ble the Secretary of State, No. 208, dated the 24th November 1863 :—

Para. 16.—In your letter of the 22nd of June, you observe that, by the orders of the Court of Directors, an exception to the rule prohibiting the grant of pensions for other than continuous service, was permitted when such service was interrupted by resignation of office, in which case *one* break of not more than twelve months was allowed. It was not my intention to continue this exception, and you rightly omitted it from the revised rules. At the same time, I concur with you in thinking that it would be harsh towards the members of the Uncovenanted Service to give retrospective effect to the alteration; and it will, therefore, only apply prospectively.

MILITARY DEPARTMENT.

Fort William, the 12th April 1864.

No. 321 *of* 1864.—The following Military letter from the Right Hon'ble the Secretary of State for India, is published for general information :—

From Her Majesty's Secretary of State for India, to His Excellency the Right Hon'ble the Governor General of India in Council,—No. 61, *dated 29th February* 1864.

Sir,—I have attentively considered in Council the Military letter from the late Governor-General

dated 27th June last, No. 40A, in which, in accordance with the instructions conveyed in my despatch, dated 10th July 1862, His Lordship reports his opinion on the subject of seconding officers of Artillery and Engineers employed in miscellaneous staff appointments.

2. As respects the maintenance of military efficiency, the Governor-General observes, the corps of Artillery and Engineers in India are essentially different. The Artillery is a regiment of officers and men, and the brigades and batteries, to be efficient, require the presence of a certain number of officers. The Engineers is a corps of officers only, of whom probably not more than one-tenth are required to be present with the Native Sappers and Miners of each presidency. With regard to the former corps, strong representations are made as to the paucity of officers for duty with the batteries at all stations, owing to officers on Staff or detached employ being retained on the establishment of their corps.

3. On public grounds, therefore, the different circumstances of the corps call for different treatment. The Artillery requires that the place of all Artillery officers withdrawn for detached employment, the few Artillery and general staff appointments excepted, should be filled up by effective officers. On the other hand, the proper work of nearly the whole of the Engineer officers is that for which their training peculiarly qualifies them, such as Public Works, and the Survey and Railway departments. To apply the principle of seconding in such case is quite uncalled for. If, however, an Engineer officer be withdrawn from professional employment in its largest sense, the public service requires that he should be seconded, made supernumerary, or be transferred to the Staff Corps.

4. In the principles thus laid down, I desire to express my full concurrence; but I consider that they are applicable to the case of Lieutenant-Colonel P. Stewart, Bengal Engineers, to which the Governor-General refers in the 11th paragraph of his letter. This officer, who is engaged on special duty in Persia, is employed for Indian purposes in the proper sphere of duty of an Engineer officer. As such, it is neither necessary nor expedient that he should be seconded.

5. I now proceed to detail the several recommendations and inquiries of the Governor-General on this important subject, and to communicate to you the conclusions at which Her Majesty's Government have arrived on the respective suggestions.

1st. As respects officers now on staff employ.

The Governor-General suggests,—

Para. 13.

"That such officers of Artillery and Engineers as have joined the Staff Corps should be struck off the rolls of their former corps; and where necessary, promotions be made in their room."

6. With respect to these corps, the public service seems imperatively to call for such a measure. The necessary steps will, therefore, be taken for carrying it into effect.

Para 14 of Governor-General's letter.

"That, in the case of officers holding permanent appointments, and not belonging to the Staff Corps, if the services of the officer should be considered of public importance in the department, he should be seconded, if not so considered, he should be required to relinquish a post for which a qualified officer might be found among the unemployed officers of cavalry and infantry, or by promotion of other officers in the department. In the first case, the officer might be offered the option of being seconded or of ... the Staff Corps.

7. I agree in this view, with the ... qualification of that part of the sugges... relates to transfer to the Staff Corps. ... having once been offered the option of ... the Staff Corps, and having declined to ... is not now eligible to join it from 18th ... 1861. A Field officer cannot join it ... date.

Para. 17 of Governor-General's letter.

"That it should be decided whether ... seconded, or made ... merary, should ... to return to regi... at the end of five years, or after ... accordance with the practice in England, ... the period of their remaining seconded ... unlimited.

8. It is considered undesirable, under ... circumstances, that an officer should ... to remain seconded beyond a period of ... I admit the force of the argument adva... 21st paragraph of the Governor-General's ... that many of the appointments held ... officers in India are of a nature entirely ... any of the situations held by seconded ... home, and require peculiar and local experi... the restriction of the period to five years ... special or extraordinary cases, in which ... might cause public inconvenience, appears ... on many grounds. In the case of the Artil... especially, prolonged absence on the staff ... detrimental, if not fatal, to efficiency. ... of the officers now to be seconded, the ... years may be allowed to reckon from ... time.

2nd—As respects the future:—

Para. 18.

"That Captains and Subalterns of ... Engineers ... with in the ... as officers ... branches of the service. That is, if officers ... corps take *permanent* appointments in ... entirely separate from their own peculiar ... they should go to the Staff Corps; the ... tary staff situations, tenable for five years ...

"That, if Field officers, who are ineli... Staff Corps, be taken for detached employ... must, if it be deemed necessary to ... complement of this rank for regimental ... duty, be seconded, or made supernumerary.

9. These views are quite correct, and ... full approval. But it will be a subject for ... ation with reference to my despatch No. ... 30th January 1864, what proportion of F... of Artillery could at any time be spared ... mental duty without prejudice to regi... ciency.

Para. 22.

"That all officers, on being perma... ferred to the S... should cease to ... the Artillery or E... and, until all unemployed officers of other ... absorbed, no unnecessary burden should ... upon the State by the uncalled-for trans... staff of officers of Artillery and Engineers.

10. I have, in a preceding paragraph ... despatch, expressed my approval of the ... that Artillery and Engineer officers, who ... the Staff Corps, should be struck off the ... their former regiment. Without seeking ... the door to Staff employment of the Artil... I must observe that financial considerations ... than justice to the unemployed officers of ...

and Infantry require that the unnecessary employment of Artillery officers in staff duties, other than those appertaining to the corps, should be carefully guarded against.

11. In the 21st paragraph of his letter, the Governor General also refers to the rules regarding the seconding of officers of and above, the rank of Lieutenant Colonel. Although not aware of the practice in this respect now in force in this country, His Lordship observes, that,—

"Officers of this rank, being ineligible for the Staff Corps, must, as before remarked, if employed away from regimental or corps duty, be seconded, if the full number of Field officers is to be maintained for corps duty, as seems desirable."

12. Upon this I would remark, that the seconding of officers of the rank of Regimental Colonel in India does not seem to be required, unless the number of officers of that grade is deficient compared with the duties to be performed. An officer of this rank of the late Bengal Artillery now holds the appointment of Member of the Ordnance Select Committee at Woolwich. As such he would, under the practice in this country, be made Supernumerary; but it must rest with your Government to determine, in communication with the Commander-in-Chief, whether such a course is necessary in this case.

13. I have addressed your Government in a separate despatch* on the general subject of seconding Field officers of Artillery. It is not desired, however, that the instructions therein contained should interfere with the arrangements to be made consequent on the present communication. These are to be made precisely as if those instructions were not yet issued.

* Dated 30th January, No. 26. See G. G. O, No. 222, dated 15th March 1864.

14. This despatch has been transmitted to, and has received the general concurrence of, the Secretary of State for War and the Field Marshal Commanding-in-Chief. His Royal Highness, however, considers it undesirable that Artillery or Engineer officers, who have been for ten years engaged on other duties than those properly appertaining to their corps, should be allowed to return to regimental duty; and he would wish that your Government should carry out this principle, as affecting officers of the late Indian corps, so far as the conditions of the Indian service will permit. This desire should be carried out as far as the interests of Government will allow.

15. Your Government should at once place yourselves in communication with the Commander-in-Chief, in order that steps may be taken for carrying out the measures now sanctioned. The promotions to be made in consequence will, of course, be reported by the Commander-in-Chief in India to the Field Marshal Commanding-in-Chief for submission to Her Majesty in the usual manner.

No. 322 *of* 1854.—Lieutenant W. R. Craster, Royal Artillery, is permitted, at his own request, to resign his appointment of doing-duty officer in No. 2 Horse Light Field Battery, Punjab Irregular Force, and his services are accordingly placed at the disposal of His Excellency the Commander-in-Chief.

IX. The Director of Public Instruction, with the Inspector and Deputy Inspectors of schools of the circle in which the Jail may be situated, shall at all times during the day have access to the Jail.

X. It is not intended that education should in any way interfere with either discipline or labor, nor will it, if properly conducted. Whenever the Magistrate in charge of the Jail shall differ with the Educational department on any point, he shall refer it to the Inspector General of Prisons. It is not to be understood that the Educational department have authority to issue any orders in the Jail: they will suggest and advise, but all orders must come from the Magistrate.

XI. The register recommended by the Director of Public Instruction, and the return also recommended by him, must be kept up and furnished regularly to the Inspector of Schools.

XII. The returns, carefully prepared, will furnish a reliable index of the progress of education among the prisoners. The attention of Educational officers, during their visits to the Jails, will be directed to the examination of the prisoners with a view to testing the accuracy of the registers, and the propriety of the classification and other arrangements observed in the schools: once during the cold weather, a more regular annual examination, of all the prisoners under instruction, shall be held.

XIII. The salaries of the Jail teachers will be charged among the contingent servants of the Jail. Expenses for books &c., must be charged in the contingent bill, under the head of "miscellaneous expenditure," but when there is a Lithographic press in the Jail, one copy of a book should be purchased, and others lithographed *from it*. All expenditure for Educational purposes must be sanctioned by the Inspector General of Prisons before being incurred.

XIV. It is to be distinctly understood that although a teacher from the Educational Department is employed, the Darogha of the Jail is to assist in every way in his power in promoting education, and Magistrates in charge of Jails are requested to explain to their Daroghas that active assistance in the matter will be expected on their part.

CIRCULAR No. $\frac{3}{61}$ OF 1864-65.

FROM

CONTROLLER AND EXAMINER,
PUBLIC WORKS ACCOUNTS, PUNJAB.

To

THE DEPUTY COMMISSIONER,

Lahore, 4th May 1864.

Several district officers have forwarded to the undersigned for audit, bills for completed works, and have subsequently sent him reminders on the subject while the expenditure on those works has not yet been audited in the monthly progress reports.

2. He, therefore, considers it necessary to point out that the audit with which they are chiefly concerned is that of their monthly progress reports, and not that of their completion bills.

3. The audit of monthly progress reports has been almost in every case delayed by the want of completeness, or the discrepancies of the first reports that were submitted—and until the last progress report is audited in which a work appears, the bill for that work cannot be audited.

4. District officers are requsted to accept this as a reply to such references as they may have made regarding the audit of their completion bills.

It is hereby notified, for information, that the Government Bullock Train Agency will cease to exist on the 1st proximo. All packages received for transmission prior to that date, will be duly delivered, but no packages will be received on or after that date.

2. Arrangements have been made, under contract with the Indian Carrying Company, for the conveyance, at fixed rates of charge, on and after the 1st proximo, of Government troops, stores, and passengers, on all the existing lines of Government Bullock Train, and on all other lines in India now served, or which may be served, by the Indian Carrying Company.

3. The rates and conditions of charge for Government troops, stores, and passengers have been fixed as follows:—

I. FOR THE DISTANCE CONVEYED BY RAIL, 3 per cent. above railway rates.

II. FOR THE DISTANCE CONVEYED BY ROAD.

(a) For Government *stores*, at 1·47 pie per maund per mile, subject to the following provisions, *viz* :—

Fractions of a mile will be regarded as a mile.

No package, however small, will be charged for at a less rate than half a maund; but parties despatching at the same time more than one package, aggregating one maund or more, will be charged according to aggregate weight.

Fractional parts of a maund, below half a maund, will be charged as half a maund; and above half a maund, as a maund.

Light packages may, at the option of the Company, be charged by measurement, at the rate of 5 cubic feet per maund.

No package will be conveyed between two stations (however short the distance) for less than 3 annas.

(b.) For Government *troops*, including officers, soldiers, women, children, and followers. The charge in this case will be made according to the number of carts (two-wheeled) or waggons (four-wheeled) required by the authorities despatching the troops. Each cart will be reckoned at a complement of 15 maunds of goods, and each waggon at a complement of 30 maunds of goods; the charge being regulated according to distance, at the rate chargeable, for that quantity of goods under the preceding section *(a)*.

The number of carts or waggons which may in any case be required will be indicated by the officer despatching the troops, in accordance with existing rules in respect of accommodation for troops, or such modification of these rules as may, from time to time, be made by the military authorities.

(c) For Government *passengers*, at the rate chargeable for stores (section *a)*, each adult passenger (*i. e.* above 12 years of age) being reckoned as equivalent to 3 maunds; each child above 2 years of age, being reckoned as equivalent to 1½ maunds; and children of two years old and under, when travelling with their parents or guardians, being conveyed free. Baggage to the extent of 20 seers for each adult passenger, and 10 seers for each chargeable child, will be allowed free; but it will be regarded as in the custody, and at the risk, of the passenger.

If separate waggons or carts be engaged for the conveyance of Government passengers, the charge will be made as for a full cart-load (15 maunds) or a full waggon load (30 maunds) as the case may be, subject to the condition that the number of chargeable passengers conveyed in such carts or waggons shall not be more than equivalent to the full complement thereof (15 or 30 maunds), on the calculation of each adult passenger being equivalent to 3 maunds, and each chargeable child to 1½ maunds.

(d.) For Government *wheeled vehicles*, such as artillery ambulances, &c., each two-wheeled vehicle will be charged as equivalent to 10 maunds, and each four-wheeled vehicle as equivalent to 20 maunds.

The charge for Government troops, stores, and passengers, will be paid by the despatching officer in advance, or the receiving officer on taking delivery, except in respect of any particular officers or classes of officers, whom the Government may authorize to despatch troops, stores, or passengers without payment as above, subject to adjustment by bills.

2. Arrangements have been made, under contract with the Indian Carrying Company, for the conveyance, at fixed rates of charge, on and after the 1st proximo, of Government troops, stores, and passengers, on all the existing lines of Government Bullock Train, and on all other lines in India now served, or which may be served, by the Indian Carrying Company.

3. The rates and conditions of charge for Government troops, stores, and passengers have been fixed as follows:—

II. For the distance conveyed by road.

(a) For Government *stores,* at 1·47 pie per maund per mile, subject to the following provisions, *viz* :—

Fractions of a mile will be regarded as a mile.

No package, however small, will be charged for at a less rate than half a maund; but parties despatching at the same time more than one package, aggregating one maund or more, will be charged according to aggregate weight.

Fractional parts of a maund, below half a maund, will be charged as half a maund; and above half a maund, as a maund.

Light packages may, at the option of the Company, be charged by measurement, at the rate of 5 cubic feet per maund.

No package will be conveyed between two stations (however short the distance) for less than 3 annas.

(b.) For Government *troops,* including officers, soldiers, women, children, and followers. The charge in this case will be made according to the number of carts (two-wheeled) or waggons (four-wheeled) required by the authorities despatching the troops. Each cart will be reckoned at a complement of 15 maunds of goods, and each waggon at a complement of 30 maunds of goods; the charge being regulated according to distance, at the rate chargeable, for that quantity of goods under the preceding section *(a).*

The number of carts or waggons which may in any case be required will be indicated by the officer despatching the troops, in accordance with existing rules in respect of accommodation for troops, or such modification of these rules as may, from time to time, be made by the military authorities.

(c) For Government *passengers,* at the rate chargeable for stores (section *a),* each adult passenger (*i. e.* above 12 years of age) being reckoned as equivalent to 3 maunds; each child above 2 years of age, being reckoned as equivalent to 1½ maunds; and children of two years old and under, when travelling with their parents or guardians, being conveyed free. Baggage to the extent of 20 seers for each adult passenger, and 10 seers for each chargeable child, will be allowed free; but it will be regarded as in the custody, and at the risk, of the passenger.

If separate waggons or carts be engaged for the conveyance of Government passengers, the charge will be made as for a full cart-load (15 maunds) or a full waggon load (30 maunds) as the case may be, subject to the condition that the number of chargeable passengers conveyed in such carts or waggons shall not be more than equivalent to the full complement thereof (15 or 30 maunds), on the calculation of each adult passenger being equivalent to 3 maunds, and each chargeable child to 1½ maunds.

(d.) For Government *wheeled vehicles,* such as artillery ambulances, &c., each two-wheeled vehicle will be charged as equivalent to 10 maunds, and each four-wheeled vehicle as equivalent to 20 maunds.

2. Arrangements have been made, under contract with the Indian Carrying Company, for the conveyance, at fixed rates of charge, on and after the 1st proximo, of Government troops, stores, and passengers, on all the existing lines of Government Bullock Train, and on all other lines in India now served, or which may be served, by the Indian Carrying Company.

3. The rates and conditions of charge for Government troops, stores, and passengers have been fixed as follows:—

II. FOR THE DISTANCE CONVEYED BY ROAD.

(a) For Government *stores*, at 1·47 pie per maund per mile, subject to the following provisions, *viz* :—

Fractions of a mile will be regarded as a mile.

No package, however small, will be charged for at a less rate than half a maund; but parties despatching at the same time more than one package, aggregating one maund or more, will be charged according to aggregate weight.

Fractional parts of a maund, below half a maund, will be charged as half a maund; and above half a maund, as a maund.

Light packages may, at the option of the Company, be charged by measurement, at the rate of 5 cubic feet per maund.

No package will be conveyed between two stations (however short the distance) for less than 3 annas.

(b.) For Government *troops*, including officers, soldiers, women, children, and followers. The charge in this case will be made according to the number of carts (two-wheeled) or waggons (four-wheeled) required by the authorities despatching the troops. Each cart will be reckoned at a complement of 15 maunds of goods, and each waggon at a complement of 30 maunds of goods; the charge being regulated according to distance, at the rate chargeable, for that quantity of goods under the preceding section *(a)*.

The number of carts or waggons which may in any case be required will be indicated by the officer despatching the troops, in accordance with existing rules in respect of accommodation for troops, or such modification of these rules as may, from time to time, be made by the military authorities.

(c) For Government *passengers*, at the rate chargeable for stores (section *a)*, each adult passenger (*i. e.* above 12 years of age) being reckoned as equivalent to 3 maunds; each child above 2 years of age, being reckoned as equivalent to 1½ maunds; and children of two years old and under, when travelling with their parents or guardians, being conveyed free. Baggage to the extent of 20 seers for each adult passenger, and 10 seers for each chargeable child, will be allowed free; but it will be regarded as in the custody, and at the risk, of the passenger.

If separate waggons or carts be engaged for the conveyance of Government passengers, the charge will be made as for a full cart-load (15 maunds) or a full waggon load (30 maunds) as the case may be, subject to the condition that the number of chargeable passengers conveyed in such carts or waggons shall not be more than equivalent to the full complement thereof (15 or 30 maunds), on the calculation of each adult passenger being equivalent to 3 maunds, and each chargeable child to 1½ maunds.

(d.) For Government *wheeled vehicles*, such as artillery ambulances, &c., each two-wheeled vehicle will be charged as equivalent to 10 maunds, and each four-wheeled vehicle as equivalent to 20 maunds.

No. 356.—In accordance with the provisions of section 15 of Act V of 1861, the Hon'ble the Lieutenant Governor is pleased to direct that the inhabitants of Kalla, in the pergunnah and district of Jhelum, shall be charged rateably with the cost of maintaining an extra Police guard, consisting of one first class and three second class constables, which it has been found necesssary to station at the village of Kalla, for a period of six months, in consequence of the misconduct of the inhabitants.

JUDICIAL DEPARTMENT.

The 20th May 1864.

No. 286.—Mr. G. R. Elsmie, Officiating Judge of Small Cause Court, Delhi, to officiate as Judge of Small Cause Court Simla.

The following extract from the *Gazette of India* of the 14th instant, is published for general information :—

FINANCIAL DEPARTMENT.

No. 50.

Extract from the Proceedings of the Government of India, in the Financial Department, Simla, under date the 9th May 1864.

Extract from a despatch from the Right Hon'ble the Secretary of State for India, addressed to the Government of India in the Financial Department, No. 63 of 1864, dated the 17th March, regarding the increase of salaries or the creation of new offices without the previous sanction of the Home Government.

PARA. 6.—In consequence of the greater rapidity of communication between India and England, there is now less reason than formerly existed for dispensing with such approval. I consider, however, that the introduction of the budget system of Estimate and Account into India renders it expedient to make some alteration in the rules regarding increases of salaries, care being taken that any charge should carry with it the advantage which is derived in this country from the necessity of exercising great deliberation with respect to all increases of salaries or establishments.

7. Here, all proposals of that nature which are made in the course of a financial year, are reserved for decision when the estimates for the ensuing year are being prepared, and if the increase has been sanctioned, it cannot be carried into effect until those estimates are voted by the House of Commons.

8. This arrangement obliges the several great departments of State to weigh carefully the reasons given for proposed increases in salaries or establishments, and to consider them with respect not only to the special office or subordinate department concerned, but to their bearing upon other similar offices or departments. It also tests the real value of the sa-

vings which are very generally put forward as a compensation to the proposed increase of expenditure, but which, in the majority of instances, are not actually realized.

9. Without enjoining the adoption of a precisely similar system in regard to India, I consider that its main principles might be introduced with great advantage, and the following rules must, therefore, be strictly observed in future :—

That no payments be made on account of increases of salary, until the additional expenditure thereby caused shall have been provided for in the budget estimate and duly sanctioned.

That no increase which would have the effect of raising the salary above rupees 5,000 per annum, be included in the budget estimate, until the sanction of the Home Government shall have been first obtained. In regard to salaries within that limit, Her Majesty's Government will not object to such increases as you may consider it expedient to make (or to sanction, if proposed by the subordinate Governments,) being included in the budget of the year, a schedule of all such increases being forwarded to this country with the estimate.

That as in regard to the creation of new offices it can rarely happen that any inconvenience would result from a previous reference to the Home Government, such reference must, as a rule, be made ; but if an emergency should arise demanding the immediate creation of a new appointment with a salary exceeding Rs. 3,000 per annum, it must be made provisionally, and at once reported to the Home Government, no expectation being held out to the individual appointed to it which would warrant a claim for compensation in the event of the appointment not being finally sanctioned.

Ordered, that the foregoing paras be published for the information and guidance of all departments of the Government of India, and all local Governments and Administrations.

By order of His Excellency the Governor General in Council.

RAILWAY.

PUBLIC WORKS ...

Fort William, ...

No. $\frac{101R}{1814}$, dated 16th Ap[ril] ...

From Captain E. C. S. Williams, Secretary to Government of India ... Department, to Joint Secretary ... Bengal, in the Public W[orks] ... Railway Branch.

In reply to your letter No. ... 31st ultimo, enquiring what arr[angements] ... made as to the time to be kept ... East Indian Railway after the ... the North Western Provinces, ... practically taken effect, I am ... to you the following instructions ...

2. In August 1862, the Gov[ernment] ... informed the Agent of the Ea[st] ... Company, that Calcutta time sh[ould] ... stations as far as Benares, and ... question had better be considered ... lines were completed.

3. The Governor General in C[ouncil] ... that the difference between Calc[utta] ... time is about 45 minutes; betw[een] ... Bombay about 63 minutes. Th[is] ... too great to admit of the same ... for all India, even if there w[ere] ... to such a course, and some ... time kept at various parts ... essential. It also seems ... great ports of Calcutta, Ma[dras] ... local mean time should be k[ept] ... as it will be by the shipping ... generally. At these ports ... quired for the ships, and true ... kept. The inconvenience of ... reckoning time is notorious, and ... if possible.

4. Viewing the matter ... light, a little consideration will ... really of importance is, that the ... and other persons connected with ... the lines, shall have a constant ... which to regulate the performance ... Consequently there can be no ... to changing the time on a ... wherever the working staff chang[es] ... hand the convenience of the public ... met by extending the time of ... towards which the traffic ... possible, without leading to ... Railway time and true local ... exceed the ordinary errors of ... reasonable deviation from abs[olute] ...

5. The Governor General in C[ouncil] ... adopts the conclusion that Calc[utta] ... carried up the line to the North W[estern] ... limits of the local Bengal ... That Allahabad time should ... carried up to Delhi and down ... Calcutta as far as the guards ... &c., are subordinate to the local ... the North Western Provinces.

6. If the change of time takes ... where it seems probable that ...

ministration will take place, there will be an error of about 17 minutes by keeping Calcutta time. If Calcutta time be kept up to Allahabad, it would give an error of 25 minutes.

7. Allahabad time carried up to Delhi will give an error at the latter place of about 20 minutes; carried to Jubbulpoor would only give an error of 8 minutes.

8. If Bombay time were carried to Jubbulpoor, it would give an error there of 29 minutes. If the Great Indian Peninsula line were however worked from both ends, the practical error would only be half of this amount of each section.

9. On the Madras lines working from Madras the greatest error would not exceed 20 minutes.

10. Between Lahore and Delhi the the error will only be about 13 minutes, and between Lahore and Mooltan something less.

11. The Rohilkund and Oudh lines might, without inconvenience, use the time of the North Western Provinces, i. e. Allahabad time.

12. In conclusion, it is observed that the time kept in most stations in this country is solar time. This varies twice in the year as much as 16 minutes from true mean time, and the errors that will arise from the adoption of the principle now laid down, will thus not be sensibly in excess of those which are now commonly accepted all over India without any inconvenience whatever.

13. It will be convenient if the Railway Companies note in their time tables the places where a change of time takes place, and state what the standards are for the various sections of the line.

Governments of Madras, Bombay, N. W. Provinces, and Punjab.
Chief Commissioners of Oudh and Central Provinces.
Agent to Governor General, Central India and Rajpootana.

Copy of the above forwarded to the Governments and Administrations noted in the margin, for information.

FOREIGN DEPARTMENT.

No. 242.

The 25th May 1864.

Notifications.—By order of the Viceroy and Governor General in Council, the following despatch from Her Majesty's Government, No. 16, dated 24th March 1864, relating to the qualification tests for employment in the Civil and Political departments of the Staff Corps, is published for general information :—

Para. 1.—" In my despatch, No. 44, of 9th February 1864, in the Military department, I communicated to your Excellency the views of Her Majesty's Government with respect to the tests of qualification to be prescribed for entrance into the several military departments of the Staff Corps of the three presidencies of India.

2. "I now purpose to address you on the subject of the necessary tests for the admission of military officers to the Civil and Political departments of the administration.

3. "These departments embrace all the appointments held by military officers in connexion with the civil administration of the non-regulation provinces, and with the several political agencies representing British interests in the Native States.

4. "During the last fifteen years, both the number and the importance of these appointments have been greatly increased by the extension of British dominion in India; and Her Majesty's Government are desirous that the greatest possible caution should be exercised in the selection of officers for posts requiring so much varied ability, sound judgment, and discreet temper, and involving such great responsibility.

5. "There is no description of staff appointments which demands from the several incumbents, whether in territories recently brought under our rule, or in the possessions of native princes of India, so large a knowledge of the languages, the institutions, the customs, the habits, and the feelings of the people. I am of opinion, therefore, that not only should the test of qualification in this instance be a high one, but that the period of probation should be exceptionally extended.

6. "It appears to me that this probation should be of two kinds. In the first instance, I am of opinion that no officer should enter upon the employment under the Foreign departments of the Indian Governments, until he has been attached for at least a year to a native regiment, serving with which the probationer may be expected to acquire some knowledge, not only of the native soldiery, but of the classes also from which they are drawn, and generally of the habits and feelings of the people.

7. "On the termination of this period, it would be necessary that the officer, if an opportunity were aforded to him of obtaining employment under the Foreign department, should be furnished with a testimonial from his commanding officer with respect to his competency and good conduct, and especially to his conciliatory demeanour towards the native soldiery and other people of the country with whom he may have been brought into personal intercourse.

8. "Having served the necessary period of probation, and undergone the prescribed test for admission into the general body of the staff, he should then be subjected to a further period of departmental probation and to certain special tests of qualification. Another year of probation would suffice, at the end of which the candidate for permanent admission into the civil and political branches of the administration would have to undergo the exminations prescribed in the rules laid down in the resolution of the 14th of July 1863. These rules appear to me, to a great extent, to meet the requirements of the case. On passing this examination and obtaining from the chief of the commission, or the political agency under which he has served, a certificate of his general good conduct and conciliatory demeanour towards the natives of all classes, the probationer would be permanently admitted to employment in the Civil and Political departments.

9. The rules are in terms applicable only *to* officers who may have joined the Staff Corps; but I presume that you intend that they should be applied equally to officers of the late Indian army who have been declared eligible and whom you may select for similar appointments. Of course it is not intended by these rules to alter, in any respect, the conditions under which members of the civil service are eligible to employment in these branches of the administration."

The orders conveyed in the above despatch necessitate the limitation of the period of probation between admission to the Civil and P[illegible] of the Staff Corps, and confirmati[illegible] one year, instead of two years [illegible] general order No. 471, dated 14th J[illegible] also prescribe certain additional [illegible] prior to admission to these branches [illegible] Corps on probation. Accordingly, [illegible] revised rules are published, which wi[illegible] tary officers, who have elected, or [illegible] elect, to join the Staff Corps in the Ci[illegible] departments, and to officers of the la[illegible] who have been declared eligible, and [illegible] selected for civil and political appoi[illegible]

No. 456 *of* 1864.—The following transcript of a Military letter, from the Right Hon'ble the Secretary of State for India, No. 103, dated 9th April 1864, is published for general information :—

MILITARY. No. 103. | INDIA OFFICE ; *London, the 9th April* 1864.

To His Excellency the Right Hon'ble the Governor General of India in Council.

SIR,—Your Military letter, dated 20th February, No. 73, transmits, with your favorable recommendation, correspondence relative to an application from Lieutenant Colonel J. McK. Taylor, Commanding 2nd Regiment, Bombay Light Cavalry, praying that the furlough regulations may be so far modified as to allow officers who have taken only one furlough during 27 years' service to take a second furlough, after the expiration of that time, without being compelled to serve 10 years from date of return to duty.

2. Under a decision of the Court of Directors, under date the 25th April 1856, No. 56, officers who take their first furlough after 20 years' service in India may take a second furlough after a service of 5 years, from date of last return to duty, or on completion of 27 years' service in India.

3. In the present case, it appears that Lieutenant Colonel Taylor took his first furlough after a service of 18½ years. Under present rates he cannot obtain a second furlough until the expiration of 10 years from date of return to duty, by which time he will have completed a service of upwards of 30 years.

4. I have no objection to the modification of the furlough regulations, suggested by your Government in favor of Lieutenant Colonel Taylor and other officers similarly circumstanced, on the understanding, however, that this is not to affect the rule under which an officer who takes his first furlough after 20 years' service, or upwards, must serve a period of 5 years, from date of last return to duty, before he is to be held entitled to a second furlough.

No. 460 *of* 1864.—The undermentioned officer is permitted to proceed to Europe, on leave of absence, on sick certificate :—

Lieutenant Colonel (Brevet Colonel) Sir Neville Bowles Chamberlain, K. C. B., of the Bengal Infantry, Aide-de-Camp to the Queen, Brigadier General, Commandant of the Punjab Irregular Force.	For twenty months, under the new regulations.

No. 462 *of* 1864.—The following order, issued by the Government of Bombay, is confirmed :—

No. 203, *dated* 20*th April* 1864.—Granting leave of absence to Europe, on medical certificate, to Captain W. D. Hoste, of the Bengal Staff Corps, Commandant, 6th Punjab Light Infantry.	For twenty months.

Transfer.

GENERAL DEPARTMENT.

The 21st June 1864.

No. 1250.—The following letter from the Government of India, in the Financial department, No. 686, dated 16th June 1864, is published for general information :—

"I am directed to acknowledge the receipt of your letter No. 1006A, of the 19th April 1864, and in reply to state that His Excellency the Governor General in Council is pleased to permit all officers who at the time of the publication of the new rules for the grant of deputation allowance to military officers in civil employ were drawing higher allowances under the old rules, to continue drawing those allowances as if the new rules had not been passed."

The following extracts from the *Gazette of India*, of the 18th June, are published for general information :—

FOREIGN DEPARTMENT.

No. 166 A. *The 15th June* 1864.

His Excellency the Right Hon'ble the Viceroy and Governor General held a durbar this day for the reception of the chiefs of the Hill States between the Sutlej and Jumna.

The chiefs with their nearest relatives and principal ministers, and the civil aud military officers of the station having assembled, the Viceroy and Governor General, accompanied by His Excellency the Commander-in-Chief, and the Honorable Members of Council, entered and took his seat.

Each chief and native gentleman present was introduced to the Viceroy and Governor General, and the usual offerings having been presented and accepted, His Excellency then addressed the chiefs in Hindoostani, to the following effect :—

" Rajahs, Chiefs, and Teekas, it is now about 50 years since you were freed from the Goorkha yoke by the British Government ; and though the overthrow of the Goorkhas was effected without any active assistance on the part of the hill chiefs, yet the British Government re-instated you all in your several chiefships and estates, and treated you with the utmost consideration and liberality. Your conduct has since that time been marked, as under such circumstances it ought to have been, by loyalty towards your benefactor, the British Government ; and I have no doubt that you will continue by the like behaviour to merit its good will and protection. It is, however, equally your duty, remembering how well and considerately you have yourselves been treated, that each one of you, Rajah, Chief, and Teeka, extend to your dependants and ryots, like beneficence of rule and management. Be just to your ryots, confine your revenue demands to that which is fair to them. Study their welfare and contentment, and allow no exaction or oppression to have place.

" Bear in mind, too, the value of knowledge, and encourage education. Without it neither Rajah nor ryot is secure from error and imposition ; knowledge, on the other hand, enables both chiefs and people to comprehend their respective rights and duties, and defends them from being easily duped or misled by the designing and unprincipled. Encourage education, therefore, both in your own families and among your people.

" I have had much pleasure in receiving you here in durbar ; and with these few words of advice shall, for the present, take leave of you."

Khilluts were then bestowed, and utter and paun distributed. After these concluding ceremonies His Excellency left his seat,* and the assembly broke up.

* There being no artillery at Simla, the annual Royal salute for his Excellency the Viceroy and Governor General, and the salutes to which the Rajahs of Sirmoor and Belaspore are entitled, were not fired.

JUDICIAL DEPARTMENT.

BOOK CIRCULAR { No. VI. / 28—961 } of 1864.

FROM

A. A. ROBERTS, ESQUIRE, C. B.
Judicial Commissioner of the Punjab.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

Dated Lahore, 21st June 1864.

SIR,

I have the honor to direct attention to Government Notification No. 350, at page 869 of the *Punjab Gazette* of the 18th current, determining, under Section X, Act VI of 1864, the mode in which the punishment of whipping is to be inflicted in the case of adults, viz. on the buttocks of the culprit with a rattan in the usual manner.

JUDICIAL. *(Criminal).*

2. *Particular attention is drawn to* the remarks of the Governor General in Council, given in the* margin. The rattan used should not be more than four feet in length and $1\frac{1}{2}$ inches in circumference. The triangles should be boarded on the side next the culprit, so as to prevent the possibility of the rattan curling round and touching the front or any other part of his person than the breech. The punishment is invariably to be inflicted within the walls of the Jail or Lock-up, in the presence of a Magistrate, and where practicable, of a Medical officer.

* "The Governor General in Council assumes that the cases will be very few in which it will be thought necessary or proper to award the maximum number of stripes, **** and that in the great majority of cases the number of stripes awarded will fall very short of the maximum; but as cases may occur (however rare they may be) in which, by reason of the hardened character of the offender, or of any peculiar circumstances of aggravation, the ends of justice may appear to require that the full amount of punishment authorized by the Act should be inflicted, it becomes the more necessary so to proportion the dimensions of the instrument to be used, and to regulate the mode of inflicting the punishment, that in no case shall any risk of serious or permanent bodily injury be incurred; and that, in its degree of severity, the punishment shall never be carried beyond what the Law intended."

3. Tehseeldars and Honorary Magistrates are interdicted from passing sentences under Act VI of 1864. These officers have never been allowed to exercise this power, and it is the wish of the Government that they should not do so now. Magistrates should therefore so arrange that these officers should not take up cases in which the punishment of whipping can be inflicted; or, where this is unavoidable, from the great number of such cases within the competency of such officers to try, or any other cause, Tehseeldars and Honorary Magistrates should, after recording the verdict, submit such cases for sentence to the Magistrate under Section 277 Criminal Procedure Code.

4. From the remarks of the Governor General in Council quoted in the margin, it will appear what a grave responsibility rests upon all Magistrates, but more especially on Deputy Commissioners, in giving effect to the provisions of the Act. I request that it may be carefully studied, and its operation in all the courts closely watched. In your next Criminal Report you are to report specially on the effects of the Law on the statistics of criminal justice. A separate circular will reach you prescribing forms for exhibiting these statistics. Copies of the Act in English and vernacular herewith accompany.

> "The Governor General in Council commits the execution of the Law to the Local Governments and the courts and officers subordinate to them, in *the full assurance that* the Law will be administered by all whose duty it will be to carry it into effect with proper moderation."

Extract from the Proceedings of the Government of India, in the Financial Department, Simla, under date the 4th June 1864.

Read an endorsement from the Accountant General, Public Works Department, No. 73, dated 18th instant, enquiring whether, in addition to the leaves mentioned in the absentee rules, Local Governments have power to grant to uncovenanted servants leave of absence, on private affairs, without pay and without the privilege of reckoning the period of such absence as service.

RESOLUTION.—His Excellency the Governor General in Council considers that the leave rules do not debar Local Governments from permitting an uncovenanted servant, for good reasons, to be absent without pay and with forfeiture of the time for which he is absent, and allowing him on his return to resume charge of his appointment.

ORDER.—Ordered that a copy of the foregoing resolution be forwarded to the Accountant General, Public Works Department, and to the Foreign, Home, Military and Public Works Departments ; as also, to Governments of Bengal, Madras, Bombay, North-Western Provinces, Punjab, and the Straits Settlements ; the Civil Pay-Masters Bengal, Madras, Bombay, North-Western Provinces, and Punjab, being also furnished with a copy each.
